

Allura™ Slim Bus Bar

Features and Benefits

- ◆ 40% slimmer profile
- ◆ Less cost than other bus bars
- ◆ Save on cost. Easier to fit in small spaces.
- ◆ DC or USB output
- ◆ 120 V input / 24 V output
- ◆ 5 year warranty

Low-profile power management for LED Displays

Allura™ LED Lights are a fantastic way for retailers to showcase merchandise and increase sales.

The Allura™ Slim Bus Bar features a 40% slimmer profile design than previous versions, making installs more manageable. Retrofit LED lighting into existing shelf systems (in either vertical or horizontal orientations) with ease. The Slim Bus Bar is available with pucks that support DC or USB output (depending on puck type). Slim Bus Bars can power up to ten 4' light bars per bar. Pucks can be placed anywhere on the bus bar and feature an LED confirmation light.

Create an eye-catching display area with Allura™ products today!

Slim Bus Bar features 120 V input / 24 V output and includes a 5 year warranty.

NOTE: Power supply not included!
