- ◆ Assembled in a high-quality aluminum extrusion
- ◆ Includes magnetic clips for easy installation under magnetic shelves
- ◆ Perfect for under-shelf lighting
- ◆ ETL certified

A lower profile LED solution with more light

New Allura™ Ultra-Mini LEDs from siffron bring more light to your retail area while taking up less space. LED lighting platforms create extraordinary value by providing high-quality illumination and color rendering of products for increased visibility, visual comfort, display aesthetics and minimum energy consumption.

Allura™ Ultra-Mini LEDs increase retail sales by getting product to stand out to customers. The low wattage requirement allows for more strips to be used on a single power source. With only a 3mm profile, Ultra-Mini LEDs can provide lighting in the most limited of spaces, such as mounted in a display case, under-shelf lighting or upward lighting from shelf-edge.

Available in 22”, 34”, and 46” lengths, Allura™ Ultra-Mini LEDs are a perfect solution to under-shelf lighting in any retail environment.
