

# Forschner Knives

Blades last longer than ordinary knives, for a long lasting cutting solution

## Features and Benefits

- ◆ Fibrox handles are naturally slip-resistant without deep texturing, great for wet or oily environments
- ◆ Exacting treatment and processing of steel blade edge can last 3-4 times longer than an ordinary knife
- ◆ 9922912966 has a polypropylene handle
- ◆ Steel blade with Fibrox or polypropylene handle
- ◆ NSF Certified

## Fibrox handles are naturally slip-resistant

NSF Certified Forschner Knives offer high-quality cutting with the utmost safety and sanitary concerns in mind. Handles are made of Fibrox for a slip-resistant grip, to reduce the risk of injury.

Handles are also without deep texturing, ensuring easy cleaning for sanitary usage. Blades last longer than ordinary knives, for a long lasting cutting solution.

## Specifications
