

Fresh-Fit® Pod Shelf Filler/Dummy

Shown with Fresh-Fit® Modular Pod Display Fixtures

Features and Benefits

- ◆ Use to organize multiple items in a Pod or as a dummy to keep the Pod looking full with minimal product
- ◆ Provides a slight angle to keep product toward the front of the Pod
- ◆ Two attached dividers included to organize the shelf into thirds
- ◆ Works with Fresh-Fit® Modular Pod Display Fixtures (above) and Fresh-Fit® Thin Profile Mod Pods
- ◆ Black plastic

Easily divide Mod Pod shelves into thirds

The versatile Fresh-Fit® Pod Shelf Filler can be used with Fresh-Fit® Thin Profile Mod Pods, and Fresh-Fit® Modular Pod Display Fixtures to improve the organization and appearance of produce displays. The two integrated dividers separate produce into three sections while the angled design keeps product at the front for easy customer access.

Since the back edge is raised, the Fresh-Fit® Pod Shelf Filler can also be used as a “dummy” to create the effect of a full shelf with less product.
