

# Fresh-Fit® Vertical Produce System

## Features and Benefits

- ◆ Unique angled design promotes first-in first-out rotation to ensure produce remains fresh and easily accessible
- ◆ Vertical presentation enables shelves to appear full using less produce, helping to reduce shrink from overstocking
- ◆ Integrated shelf perforations and open pattern wire front fence and dividers allow for maximum drainage and air flow
- ◆ Front fence and dividers have the same design for uniform appearance and visibility of product
- ◆ Available components include an asparagus tray and variety bins
- ◆ Black powder-coated aluminum shelves with wire front fence (included with shelf) and dividers (sold separately) - recommend two dividers per shelf

## Innovative shelving system creates “wall of produce”

Provide an attractive and organized presentation. The unique angled design promotes first-in first-out rotation to ensure produce remains fresh and easily accessible. In addition, the vertical presentation enables the shelves to appear full using less produce, which helps reduce shrink from overstocking.

Integrated shelf perforations and open pattern wire front fence and dividers allow for maximum drainage and air flow.

## Specifications

Item No.	Style	Dimensions	Pack
9924319811	Shelf	14" D x 48" L	1
9924319812	Shelf	20" D x 48" L	1
9924319813	Shelf	26" D x 48" L	1
