

### SAFETY NOTES:

- **ALWAYS** use two people to lift the Infant Formula Merchandiser.
- **DO NOT** extend the drawer of more than one Infant Formula Merchandiser at a time.
- **DO NOT** install an Infant Formula Merchandiser on a gondola with a base deck shorter than the minimum stated on the shelf.

- ① Remove the Merchandiser from packaging by carefully opening the top of the box, flipping it upside down and lifting the box off of the Merchandiser.
- ② For easiest installation, remove shelves immediately above the section where the Merchandisers are to be installed.

**IMPORTANT!**

- ③ Always begin installation with the bottommost Merchandiser. Put a mark at the 5<sup>th</sup> slot from the lowest point in the plan-o-gram set. This denotes the slot into which the top tooth of the Merchandiser will be inserted.

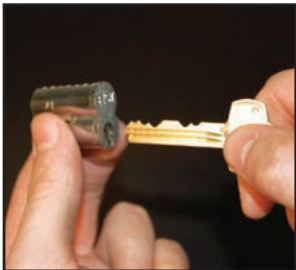

- ④ For additional Merchandisers being mounted above any lower Merchandisers, mark the 9<sup>th</sup> slot above the previously marked slot to designate the next top tooth slot.

5th Slot  
Top Tooth

- ⑤ Starting with the bottommost designated slot, install the Merchandiser into the gondola at the marked slots. Ensure the Merchandiser brackets are completely seated by visually inspecting that there is no gap between the bracket and gondola notch.

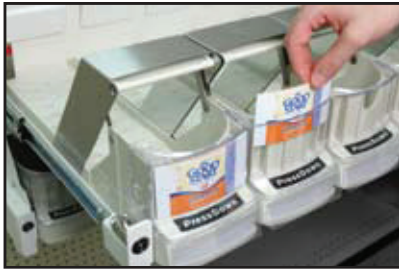

**IMPORTANT!**

- ⑥ Add key core to lock housings. Unlock both to open the drawer.

- ⑦ Remove the night lockout bars (if applicable), from the front of the shelf and place them on the plastic extrusion in the rear of the drawer.

- ⑧ Insert labels (shipped separately) into the doors of each facing according to the plan-o-gram.

- ⑨ Stock the Merchandiser with Infant Formula cans in the appropriate modules.

- ⑩ Close the drawer to the Merchandiser ensuring that each side is completely locked.

### **SAFETY NOTES:**

- **ALWAYS** use two people to lift the Infant Formula Merchandiser.
- **DO NOT** extend the drawer of more than one Infant Formula Merchandiser at a time.
- **DO NOT** install an Infant Formula Merchandiser on a gondola with a base deck shorter than the minimum stated on the shelf.

### **Lockout Bar Installation: If applicable, to prevent unauthorized access to the product.**

- ① Unlock and open the Merchandiser drawer.
- ② Retrieve the night lockout bars from the extrusion in the rear of the drawer and fit them over the top of the steel portion of the modules.
- ③ When complete, close the drawer and ensure that both sides are locked.
