Loss Prevention Merchandising

Smart solutions designed to protect merchandise

We specialize in shopper-friendly merchandising solutions that protect products while driving sales. From intelligent solutions to mechanical product protection, we offer multi-level solutions for all types of retailers and brand manufacturers. We have worked closely with the top retailers throughout the world and we continually provide solutions around three key principles:

- Shopper friendly
- Reduce shrink while reclaiming sales
- Scalability

Our security solutions are designed to help retailers achieve these goals. Contact us today and put siffron's loss prevention solutions to work for you!

System Integration

The store-wide solution to theft

SONR™ provides retailers with a viable solution for displaying valuable items anywhere in the store without losing them to shrink. It keeps merchandise visible, accessible, and, most importantly, shoppable. Best of all, it deters theft well before criminals reach the door.

SONR™ is an open security ecosystem. Merchandise is displayed and kept accessible for honest shoppers. This open environment does not mean it is light on theft deterrence. SONR provides effective security measures to notify store associates of activity and draw attention to potential shoplifters.

Simple yet complex

The simplicity of the system manifests in the alerts it provides when retail product is shopped at the display level. SONR™, which is battery operated and can be easily installed without running electricity or wiring, is much more than just beeping fixtures. It protects merchandise throughout the store.

The fixtures send an echo of additional alerts to the SONR™ Echo Box up to 25 feet away. These push notifications give retailers the ability to safeguard their merchandise through added communication and awareness. This awareness initiates employee intervention, which is one of the most effective ways to deter theft.

Above and Beyond

While the display level alerts and Echo Box notifications provide a very comprehensive solution to stop theft, SONR adds another layer of protection on top of that - store system integration.

The Echo Box is equipped to connect to in-store systems and trigger a variety of additional security measures. These systems include call boxes, CCTV, walkie talkies, intercom systems, public viewing monitors, and more.

With multiple layers of theft protection, SONR gives retailers the flexibility they need to drive down theft in almost any area of their retail environment.

SONR™ Multi-Tiered Solution

Tier 1 - Display Level Alerts

The first level of SONR™ security starts at the display level. Merchandise removed from a hook or shelf triggers the initial response. A warning beep is emitted to draw attention to the affected retail area and to deter potential shoplifters.

- ◆ Basic level of security
- ◆ Keeps merchandise open and available to shoppers
- ◆ Alerts nearby store associates

Tier 2 - Push Notifications

The second tier of security offered by SONR™ starts by installing an Echo Box at or near a store associate workstation to mimic all warning beeps and alarms from the SONR™ products of facings. The SONR™ system can be set to alarm if too many products are removed or another security threshold is passed. This feature notifies store associates who may not be in the retail area of activity.

- ◆ Alert store associates to activity on and off store floor
- ◆ Protect merchandise from a distance
- ◆ Alarms to effectively deter theft

Tier 3 - Integrate into On-Site Security Systems

The third tier, and most sophisticated level of security for the SONR™, links into existing security and communication systems to suit store needs. The SONR™ Echo Box with optional signal output ports integrates with existing security systems, such as an overhead intercom or Public Viewing Monitor (PVM).

- ◆ Integrate into Public Viewing Monitor (PVM), CCTV, intercoms, and other store systems to deter theft
- ◆ Quickly alert associates to activity in any area

SONR™ Hook

- Display hook designed to guard against product sweep
- Notifies store associates when customers have chosen merchandise by emitting a warning beep or alarm to detract shoplifters
- Use with SONR™ Echo Box for a second tier of security
- No deactivation device is required for SONR™ hooks

Compatible with SONR™ Echo Box

SONR™ Crossbar Shield

The SONR™ Crossbar Shield is a new addition to the SONR™ product family. Designed to be a cost-effective solution to loss prevention in grocery, pharmacy or convenience stores, the SONR™ Crossbar Shield prevents sweep and theft for an entire row of facings on a shelf. The SONR™ Crossbar Shield's low-profile design preserves space, ensuring retailers do not lose any additional space to sell merchandise.

- Protects an entire row of product facings
- Anti-sweep hook design
- Battery powered
- Easy to install
- Low profile to preserve retail space
- Multi-platform security

Compatible with SONR™ Echo Box

4666883680	SONR™ Cross Bar, FRQ 1	48" L x 10" D	Black	1

SONR™ Spiral Anti-Sweep Hook™

The new SONR™ Spiral Anti-Sweep Hook combines two proven loss prevention methods into one solution. The design effectively prevents offenders from sweeping product off of the hook. Each knob turn draws product forward, releasing one SKU at a time while an audible clicking noise alerts associates to activity in the area.

- Features a mechanical audible alert – deterring shoplifters
- Eliminates sweeping through integrated dispensing coil
- Integrates with SONR™ Echobox – providing push notifications to store associates up to 25' away
- Attaches securely to pegboard (bracket included)
- Has mounting adapters that include Wire Fastrack, Mega Bar, slatwall and Madix crossbar (sold separately)
- Open security – customers do NOT require assistance to access product

LM Tag™ Loop with SONR™

New LM Tag™ Loop with SONR™ provides retail and display merchandise security for a wide range of product sizes. LM Tag Loop with SONR uses a cable (6" or 12" available standard) that installs into a reusable LM Tag.

The LM Tag Advantage: LM Tag Loop with SONR offers the ONLY cable solution that alerts retailers to concealed merchandise using siffron's patented light and motion sensor tag. The LM Tag™ Loop with SONR™ features an EAS gate sensor (AM and RF) and will alarm if it passes through EAS gates.

Use with SONR™ Echo Box for added security.

- Reuseable, small & lightweight
- Effectively deters theft at the point of concealment
- Notifies store personnel off the floor of suspicious activity up to 20' away
- 6" and 12" cable locks available
- Alarm activation with:
 - Cable cut or LM Tag removed from package
 - Concealment threshold met
- Passes through EAS gate (both gate and LM Tag alarm)

LM Tag™

The LM Tag™ uses the combination of a light sensor and motion detector to notify when the product is both in motion and concealed. It is the only device on the market that alarms at the point of concealment, alerting you before product walks out the door.

When a product is concealed in a bag, under a coat, or in a pocket and there is movement of the product, the LM Tag™ turns on and counts down for a period of time and beeps lightly. After a designated period, the tag will alarm to alert store staff.

- LM Tag™ is ideal for multiple product types, lines and categories
- It doesn't damage or distract from brand packaging
- Ideal for small to mid-size products
- Customers access product without staff assistance
- LM Tag™ 3 Alarm dimensions: 1.5" W x 1.5" L x .58" H
- LM Tag™ Slim dimensions: 1.5" W x 1.5" L x .35" H

 **TURTLE 2.0**
PROTECT YOUR MERCHANDISE

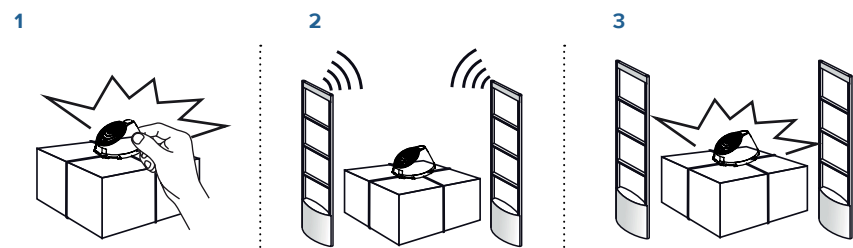

All-In-One EAS Security Sensor System

- Battery lifetime: Approximately 2 years
- Replaceable CR2450 battery
- Alarm volume: >95db
- Full alarm: 5 min. / Pre-alarm: 3 short beeps
- AM (58kHz) / RF (8.2MHz)
- 2 & 3 alarm options available
- 1.75" H x 2.1" W x 2.63" L

Protect packaged and display merchandise in your stores using the new Turtle 2.0 from siffron. Turtle 2.0 combines the securing of boxed retail products, similar to the original Turtle, along with EAS gate functionality. Turtle 2.0 provides improved sensitivity - by limiting false alarms from loose strapping - and streamlined installation, while ensuring greater protection from potential offenders.

The Turtle 2.0 features a sleek new design that fits more securely to packaged items and protective strapping - making it virtually impossible to remove without the proper detacher.

- 1st alarm:** Manipulating or removing Turtle from package triggers Turtle to alarm
- 2nd alarm:** Armed Turtle triggers EAS Systems to alarm
- 3rd alarm:** AM or RF antenna or deactivator signals Turtle to alarm

Item No.	Description	Style	Finish	Pack
4619985082	AM Turtle 2.0	2-Alarm	Black	25
4613864534	RF Turtle 2.0	2-Alarm	Black	25
4611517632	AM Turtle 2.0	3-Alarm	Black	25
4614059246	RF Turtle 2.0	3-Alarm	Black	25

Turtle Security Bands

Turtle Security Bands solve the issue of ensuring Turtle (and Turtle 2) security tags are fastened securely to the merchandise retailers want to protect. Simply secure the Turtle Band through the Turtle security tag housing. If the band is cut, the Turtle alarms. If the band is cut or removed from merchandise, the Turtle alarms.

- 2 strap lengths available: 5" and 10" for merchandise versatility
- silicone elastic - easy to install
- Prevents false alarms
- Removes need for traditional strapping equipment
- Use with Turtle or Turtle 2 security tags
- Reusable

Turtle security tags provide 3-alarm protection:

First alarm: Armed Turtle triggers EAS Systems to alarm

Second alarm: Manipulating or removing Turtle from package triggers Turtle to alarm

Third Alarm: AM or RF EAS Antenna or deactivator signals turtle to alarm.

5" band - stretches to fit packages up to 5"-10" in length

10" band - stretches to fit packages up to 10"-20" in length

Item No.	Dimensions	Finish	Pack
4629799000	.625" W x 5" L	Yellow	100
4629799001	.625" W x 10" L	Red	100

Loop Tag Alarm

siffon's new Loop Tag Alarm is an all-in-one EAS gate sensor solution. It is easy to set up and is equipped with a tether to strap to the merchandise. The Loop Tag Alarm securely safeguards merchandise from potential offenders while keeping it accessible for honest customers. Attempting to remove the Loop Tag Alarm or take the product out of the store will cause the device to alarm. Additional security for displayed or multi-component items is available by using secondary security cables.

Product Displays - Items set up for store promotion are vulnerable to potential offenders. Loop Tag Alarms eliminate possible theft by securely attaching to the displayed merchandise while keeping it accessible for legitimate shoppers.

Store Merchandise - Protect high dollar and high theft store merchandise of any size. Handheld home appliances, electronic devices, even bicycles can be easily tagged and protected.

- Battery lifetime: Approximately 2 years
- Replaceable CR2450 battery
- Alarm volume: >95db
- Full alarm: 5 min.
- Pre-alarm: 3 short beeps
- AM (58kHz) / RF (8.2MHz)
- Covers product up to 48mm in diameter or circumference of 150mm

P.O.P. Security™ Invisi-Shield® System

Protect high-loss product with siffron's P.O.P. Security™ Invisi-Shield® System. Sliding panels prevent “shelf sweeping” theft, while providing easy product access for legitimate customers. Crystal-clear “invisible” panels provide an unobstructed view of consumer product.

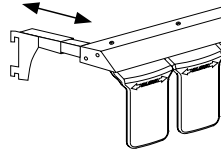

- System secures high-value, high-theft product, while allowing customer access to product for purchase
- Designed to install easily with minimal to no impact on existing planogram
- Panels available for narrow, wide, or tall product; feature contoured edges for comfortable shopping
- Optional accessories such as end panels, locking panel and security bar cover provide additional security by limiting access to product
- High-impact clear plastic panels are nearly unbreakable, even in high-traffic environments
- Additional languages can be imprinted on panels with minimum run quantities

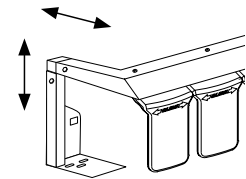

A1 Under-Shelf Style Rail for Gondola Shelf with Perforations

A2 Gondola Upright Style Bar with optional flat security cover

A3 Standard Shelf-Top Style Bar with optional domed security cover

A Panel Rails & Mounting Bars

A1. Under-Shelf Style Rail

- Mounts seamlessly to the underside of standard perforated gondola shelves with minimal loss of vertical merchandising
- Required for styles A2 and A3

A2. Gondola Upright Style Bar

- Inserts into the slots on standard gondola uprights
- Designed for pegged product, but can also protect a top shelf when sufficient slots are available
- Unit telescopes to serve multiple shelf depths

A3. Standard Shelf-Top Style Bar

- Attaches at the back of the perforated shelf it protects
- Designed for top shelves when the Gondola Upright style cannot be installed because slots in the upright are not available
- Unit has adjustable height and depth

Infant Formula Merchandiser

Designed to meet the growing challenge of displaying high-theft items in a way that not only protects the merchandise, but also makes it accessible to customers.

- Single dispensing prevents shelf sweeping and deters shoplifting
- Gravity feed design self-faces product
- Optional P.O.P. Security™ Invisi-Shield® Panels provide added security for small cans
- Push lever tilts can forward for dispensing
- Merchandiser locks to prevent unauthorized access to inventory
- Incorporated fixture “lock down” option prevents unauthorized dispensing during reduced staffing, evening hours, or in very high-theft areas (not for use with Invisi-Shield®)
- Merchandiser hooks directly to the gondola uprights; no tools or assembly required

Alarm for Tether Systems

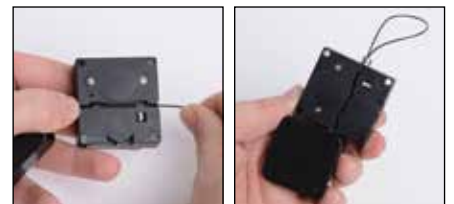

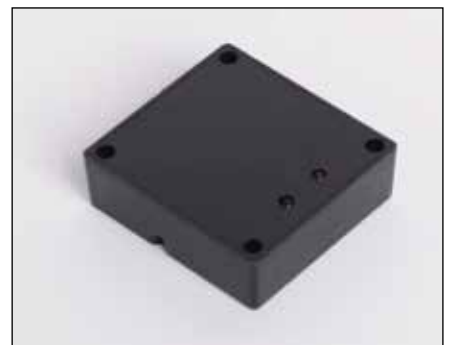

This reusable alarm secures products that are tethered without the need for an expensive powered cable. The alarm works with most existing tether systems (compatible tethers on page 15) and can be reused with a new tether if existing tether is cut or damaged.

Alarm

- Alarm can be reset and used multiple times
- Triggers an audible extended alarm when a tether is cut and retracts past the alarm box
- Designed to allow customers to review secured product as normal
- Mounting holes fit #6 screws (0.14" diameter hole x 0.6" deep)
- Clean low profile design doesn't detract attention away from product
- Utilizes a simple plunger switch to trigger the alarm
- Extended alarm sounds until turned off with the use of a remote control
- Point remote control within 1"- 6" above the black sensor on top of the hook
- Includes replaceable battery (Type: CR2032)
- Battery lasts up to one year

Remote Key

- Remote Key for powered Alarm for Tether Systems
- Sold separately

Insert tether into the channel and install onto the display. Designed to work with all Heavy Duty Tethers.

If the tether cable is cut it retracts past the alarm box. Extended alarm will sound until it is turned off with remote control.

Remote Key

PATENTED

Bottom of Tether

Self Contained Alarming Tether - 36"

This all-in-one security system secures high-theft products that are tethered without the need for an expensive powered cable. The all-in-one design with integrated tether allows for quick and easy installation and can be reused only if tether remains undamaged.

- Triggers an audible extended alarm when the tether is cut and retracts past the alarm box
- 36" cable with grommet end
- Designed to allow customers to review secured product as normal
- Mounting holes fit #4 screws (0.124" diameter hole x 0.835" deep)
- Includes replaceable battery
- Includes battery release strip to save battery life during storage
- Battery lasts up to three years

Item No.	Dimensions	Finish	Pack
4629045958	1.75" W x 2.75" L	Black	10

Magnetic Display Tether

- Tether system with a base and connector that magnetically attach together
- Allows customers to view product and place back into the proper position after use
- Base and connector magnetically attach when product is not in use
- Cable dimensions: 32.5" L x .0325" diameter cable

Item No.	Dimensions	Finish	Pack
4626547935	1.4" W x 2.16" L x 1.125" H	Black	10

Droplet Tether

- Attachment screw hole goes through the middle of the housing
- .035" diameter stainless steel cable; cable length: 36"
- Flat metal plate end with adhesive for mounting to product
- Available version with cable exiting out the front or the tether
- Minimum quantities apply
- Box dimensions: 1.1875" W x 2" L x .625" H

SONIQ²™ ALARM HOOK

The SONIQ2™ Alarm Hook has an open system design that protects product and allows customers to remove and replace product without assistance.

Features switchable modes so retailers can choose between an alarming function and a “beep only” mode.

The new deactivation method utilizes a light sensor eye located behind the label holder. Use the innovative strobe key to deactivate.

- A simple beep upon product removal denotes activity and deters theft
- An extended alarm sounds when the label holder is held up for 10 seconds or multiple products are removed
- Adding curvature to the product hook creates barriers to sweep and makes product removal more deliberate
- Switch alarm between alarming and beeping mode
- 5 minute deactivation/reset time allows store personnel to stock hooks with no alarms occurring
- Used with optional security straight-entry back, or traditional straight-entry back

Audible deterrent upon product removal

Deactivate continuous alarming with Strobe Key Deactivator

Item No.	Dimensions	Finish	Pack
4610290552	10" SONIQ2™ Alarm Hook	Black	12

One Shot™ Hook

One Shot™ Hook is designed specifically to prevent sweep. Using a stop trigger mechanism to only allow one product to be removed at a time, the One Shot™ Hook is an economical and effective way to approach loss prevention. Use in conjunction with the Locking Back for extra protection.

- Works as a normal peghook when single products are removed
- Will not interfere with a normal shopping experience
- Straight entry locking hook

Locking Fastback®

Locking Fastback® is composed of a 2-piece assembly that snaps over the hook insert, preventing shoplifters from removing the entire hook (and the merchandise along with it).

- Reusable and effective, the Locking Fastback® is a perfect solution for cost effective loss prevention
- Straight entry design
- Secures hook to pegboard
- No tools required
- Works with all R33 series peghooks in .186" and .212 diameter, as well as a variety of security hooks.

Can be used with:

Fastback®

SONR™

One Shot™

Stop Locks

First Line™ Security Swing Lock

The Swing Lock attaches to existing scan hooks (from .186” through .250” wire diameters), and features a durable metal swing arm that secures the lock around the hook, preventing removal of product.

1. Hinge-feature allows for easy installation
2. Metal swing arm for durability
3. Universal Key

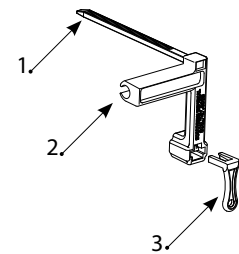

Item No.	Dimensions	Finish	Pack
4666922885	3" H x 1.75" W x 1.75" D	Gray	10

First Line™ Security Hook Lock

This economical solution utilizes a durable plastic construction that securely snaps onto the scan arm (from .186” through .250” wire diameters) and ratchets around the scan hook, requiring a key to access merchandise.

1. Ratchet design for secure fit
2. Reinforced plastic arm snaps onto scan arm of hook
3. Universal Key

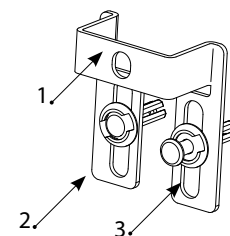

Item No.	Dimensions	Finish	Pack
4660283935	2.375" H x .625" W x 2" D	Gray	10

First Line™ Security Peg Back Lock

The Peg Back Lock secures the hook to the pegboard. Simply slide it over the bottom wire of a scan hook and use the included push pins to lock it in place.

1. Easily slide over lower arm of scan hook
2. Steel construction for durability
3. Push pin design expands on entry into pegboard and locks in place

Item No.	Dimensions	Finish	Pack
4669882157	2" H x 1.5" W	Galv.	10

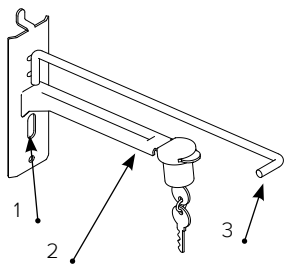

First Line™ Security Lock Hooks

At siffon®, we've developed the First Line™ Security Solutions to combat shoplifting. They are designed to deter shoplifters at the initial stage of the theft. With their strong locks and ability to be secured to the fixtures, these security solutions make it harder for criminals to acquire the product, thus deterring theft.

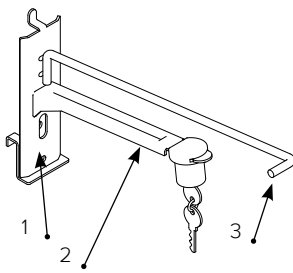

- Features heavy-duty .250" diameter wire with a locking end to prevent products from being removed
- Available in standard stem and "butterfly" style stem

Security Lock Hook with Butterfly-Style Stem

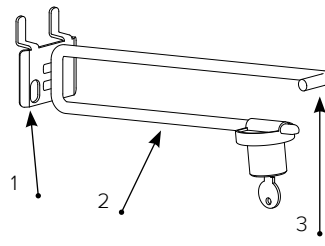

1. Insert screw and anchor to secure to pegboard.
2. For butterfly and delta slotted products.
3. Use Quad-Wire, Fast Tag™, or R35 label holders.

Slatwall Security Lock Hook with Butterfly-Style Stem

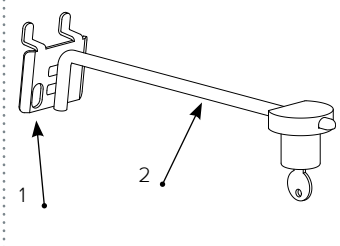

1. Insert screw into adapter to secure to slatwall.
2. For butterfly and delta slotted products.
3. Use Quad-Wire, Fast Tag™, or R35 label holders.

Security Lock Hook Standard Scan Hook

1. Insert screw and anchor to secure to pegboard.
2. .250 diameter wire for standard peg items.
3. Use Quad-Wire, Fast Tag™, or R35 label holders.

Security Lock Hook Standard Single Stem Hook

1. Insert screw and anchor to secure to pegboard.
2. .250 diameter wire for standard peg items.

CBD Lock Box

The CBD Lock Box is a locking cabinet specifically designed for securing CBD and other small products on a shelf. The locking cabinet can be bolted to standard retail shelving.

- Fully enclosed cabinet with access only via locked door
- Clear door for full view of product inside
- Door hinges open at bottom to access product once unlocked
- Key included
- Mounting hardware included

new

Item No.	Dimensions	Finish	Pack
4649908500	24" W X 9" H X 9.4" D	Almond	1

Fake Security Camera

Utilize the fake security camera to provide the illusion of active security monitoring. The realistic appearance and flashing red light of the fake camera provides an immediate deterrence to potential thieves, as people tend to be more cautious if they believe they are being monitored or recorded.

- Mounting hardware included
- Batteries sold separately
- No wiring needed
- Press the camera unit to activate the battery powered, flashing red light
- Special pole attachment fits standard pole thread and is ideal for placement of camera on ceiling grid

Item No.	Dimensions	Finish	Pack
4645455971	4.5" D x 3" H - Fake Camera	Black	1

CCD Fake Security Camera

Installing realistic-looking fake security cameras will deter crime and prevent property damage by fooling criminals into believing you have a real surveillance system. It's impossible to tell the difference between our CCD Fake Security camera and the real thing!

- Increase security presence without high costs
- Pivoting arm allows the camera to be adapted to multiple locations and angles
- Wall mounted bracket includes installation hardware
- Flashing LED light and fake wire create the illusion of a functioning camera
- Easy installation with no wiring required
- Battery powered LED uses two AA batteries
- Slide shield back to access battery compartment
- Batteries are not included

Item No.	Dimensions	Finish	Pack
4649324583	7" H x 3.25" W x 9.75" D	Silver	1

Security Seal Adhesive Tab

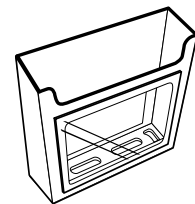

- Low cost security tab for sealing packages and reducing product tampering and theft
- Adhesive tab is placed across package opening
- Broken tab or damaged packaging indicates tampering
- Packaged 9,500/roll; sold in full rolls only

Item No.	Dimensions	Finish	Pack

COVID-19 Catalog

The COVID-19 pandemic has brought many unforeseen challenges to retailers. While we applaud the bravery and endurance of our essential workers that have continued to keep us going, we cannot take their health and safety, or the health and safety of our customers, for granted.

That's why siffron has compiled a complete COVID-19 Safety Essentials Solutions Guide to provide one easy place for retailers to get the products they need to protect their customers and store associates from spreading harmful infections.

- Signage and Messaging
- Safety and Protection
- Health and Wellness
- Cleaning and Janitorial

We invite you to check out these and more effective retail solutions online at www.siffron.com.

A blue-tinted photograph of a hand holding a white plastic container of Similac Advance infant formula. The container has a label with the brand name 'Similac Advance' and 'INFANT FORMULA' visible. Below the container, a hand is shown pressing down on a box of Similac Advance, with the text 'Press Down/Oprimir Aquí' printed on the box. The background is a dark blue gradient with white geometric lines forming a diamond shape.
