Locking Fastback®

PATENTED

Step 1: Install back into pegboard

Step 2: Insert display hook

Step 3: Snap on lock

Features and Benefits

- Reusable and effective, the Locking Fastback® is a perfect solution for cost effective loss prevention
- Straight entry design
- Secures hook to pegboard
- No tools required
- Works with all R33 series peghooks in .186" and .212" diameter, as well as a variety of security hooks.

Secure hooks to pegboard - No tools required!

siffron's Locking Fastback® enables additional security and easier display setups for products featured on display hooks. The Locking Fastback is composed of a 2-piece assembly that snaps over the hook insert, preventing shoplifters from removing the entire hook (and the merchandise along with it).

For store employees, the Locking Fastback provides a secure and easy way to re-planogram their displays with its straight entry design. Reusable and effective, the Locking Fastback is a perfect solution for cost effective loss prevention. Locking Fastbacks are designed to fit .186" and .212" wire diameter scanning hooks.
