

# Motion Mat

## Features and Benefits

- ◆ Low-friction shelf liner is ideal for gravity-feed shelf units
- ◆ Helps products glide forward smoothly
- ◆ Use in grocery, beverage sections, and freezers or in environments with temperatures below 150°F
- ◆ Easy to install, clean, and maintain
- ◆ Width and/or depth can be easily cut to ensure ideal fit
- ◆ White or black HIPS base with silicone top layer
- ◆ NSF Certified and FDA compliant

## Low friction liner gently glides product forward

Motion Mat® shelf liner allows for ease of shopping and restocking, while protecting the bottom of cooler cases from spills. Ideal for use in freezers or dairy cases, low friction liner gently glides products forward when used on gravity-feed shelf units and is NSF Certified and FDA compliant. Mats are available in white or black for an ideal solution to any cooler case.
