Put an innovative spin on impulse product displays

Revitalize point-of-purchase displays and boost sales with Pole Star® Spinner Displays. Retailers can create numerous revenue-generating impulse buy stations in high-traffic areas that can accommodate a variety of merchandise.

The Pole Star® Spinner Display features a streamlined design to reduce setup and install times. Set up a display quickly and easily. The patent-pending rotor stop ensures display racks are easily adjustable but maintain a firm hold using minimal effort. Various merchandising options are available to hold different product packaging types and sizes.

The Pole Star® Spinner Displays are perfect for boosting category sales in impulse areas near checkout lanes and throughout convenience stores, with products such as gift apparel, snacks, candy, toys, and more.
