

SHOGUN TAG™ LOOP

PATENT PENDING

Features and Benefits

- ◆ 3-Alarm Protection:
 - Loop is cut
 - Pass through EAS gates - Gates Alarm
 - Pass through EAS gates - Tag Alarms
- ◆ Reduced footprint for planning and merchandising value
- ◆ Reusable, small & lightweight
- ◆ 6" and 12" cables available

Quick and effective alarm protection for non-packaged products and display items

Shogun Tag™ Loop is an innovative and highly effective security solution designed to safeguard valuable merchandise. With its cable cut resistance, the Shogun Tag™ Loop provides unparalleled protection against theft attempts.

This advanced technology ensures that even if a potential thief manages to remove the loop from its item, an alarm will be triggered immediately. Moreover, when passing through EAS gates, both the gate and the Shogun Tag™ Loop will sound an alarm simultaneously, leaving no room for any unnoticed breach in security.

One of the notable advantages of this system is its reduced footprint, allowing retailers to optimize their store layout without compromising on merchandising value. Furthermore, being reusable, small-sized and lightweight makes these tags extremely convenient for staff handling during product placement or removal while ensuring maximum security at all times.

Specifications

Item No.	Description	Dimensions	Pack
4619450100	Shogun Tag™ Loop Base 3 Alarm AM	2.3" L x 1.5" W x .5" T	100
