

Stainless Steel Ergonomic Handle Ladle

Short handle allows for use under low profile breath guards

Features and Benefits

- ◆ Heat-resistant black ergonomic handle for comfortable use
- ◆ Oval shape makes pouring easier; stainless steel
- ◆ Stainless steel with plastic handle

Handle design prevents ladle from sliding into container

The ergonomic handle design of Stainless Steel Ergonomic Handle Ladle reduces the risk of spills when serving under low profile breath guards, while enhancing comfort and usability.

The unique oval shape of the ladle bowl allows for easy filling of containers with smaller openings – ideal for salad dressings, soup containers and more.
