

Telescopic Plastic Sign Frame

Features and Benefits

- ◆ Telescopic sign frame adjusts from 12" to 22" high for use in displays throughout the store
- ◆ Sign frame features attractive rounded corners
- ◆ Stem can be raised or lowered with simple thumb release
- ◆ Stable round base is flat so it can slide beneath display products
- ◆ White plastic

Adjust sign frame to the perfect height

With attractive rounded corners and easily adjustable stem height, Telescopic Plastic Sign Frame is an ideal way to display single or double-sided graphics on flat surfaces throughout the store.

This durable sign frame is the optimal way to suit most display needs.
