GoMix™ Pick & Mix Display

Fresh Area Merchandising

Maximize impact with minimal use of space

Judging by the placement of enticing fresh displays at the entrance of nearly every grocery store, retailers are clearly aware that the fresh area is one of the most important sections of a store's layout. But, what makes this area so appealing to customers?

While location at the store entrance seems to be the most important factor, presentation follows a close second. Here are six factors to keep in mind when setting or resetting your fresh area:

- ◆ Keep displays looking full
- ◆ Maintain a flexible layout
- ◆ Merchandise vertically
- ◆ Refrigerate appropriately
- ◆ Use ample lighting
- ◆ Don't forget signage

This guide includes a wide variety of products to help you maximize impact with minimal use of space.

ModoSHELF™

the best place to display your merchandise
in any way you want to display it

A grocery store's produce area is critically important to a supermarket's success due to its high level of traffic and increased revenue. Retailers know that differentiating themselves in this area is of utmost importance.

Many things can detract from this area as well. These distractions include poor display of merchandise, dirty or disorganized appearance, and the labor costs associated with managing and cleaning this retail space section.

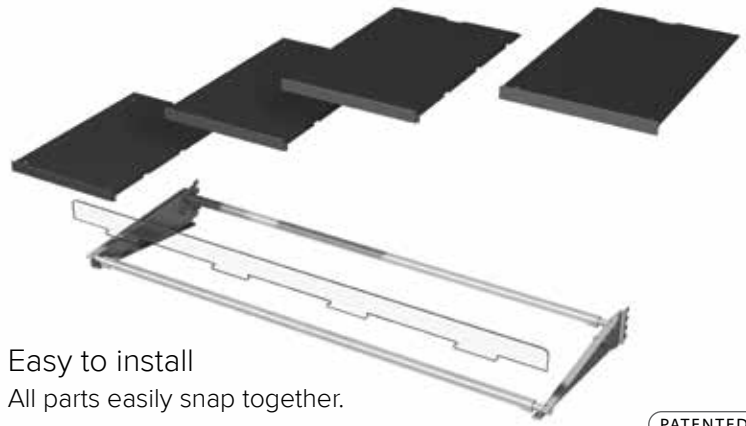

Why ModoShelf™ is different

ModoShelf™ is a revolutionary shelving system that provides a wealth of benefits that addresses many of the challenges facing retail today. These needs address the concerns of functionality, cleanliness, and reduced labor.

With a modular, lightweight design, ModoShelf offers many design options to create beautiful product displays while optimizing merchandising space.

Its lightweight design means it can be set up easily by one person. The tile construction allows for easy disassembly to quickly and efficiently maintain cleaning protocols in the store's fresh area.

Combine all of this with its NSF certification, ModoShelf is one of the most reliable, versatile, and safe products on the market today.

Easy to install
All parts easily snap together.
No tools required.

PATENTED

Dishwasher safe
Use Pot, Pan and Utensil Washer or 3-compartment sink wash and sanitizing process.

Pot, Pan and Utensil Washer

Benefits

Easy-to-clean - Removable antimicrobial ABS tiles are 100% dishwasher safe

Stainless steel rust proof frame is long lasting and guarantees food safety

DESIGN IT YOUR WAY

Modular design provides plenty of options

Imagine building an attractive and organized product presentation with angled shelving that promotes first-in, first-out rotation in mere minutes.

ModoShelf™ is a flexible and expandable grid system that's available in four different widths (12", 24", 36" and 48"). You can setup as little or as much display area as you need using our versatile design system. You can also adjust the angle of the shelves to four set positions: 0°, 10°, 20°, and 30°. ModoShelf's tiles are installed with a simple snap – no tools required.

Contact siffron for a custom quote.

ModoShelf™ Features

1. Shelf Construction

Lightweight tiles combined with a tube frame allows for one-person installation - no tools required

2. Grid Uprights

Insert as many uprights as needed for your shelf configuration - no tools required

3. Grid Mounting Bar

The grid mounting bars, top and bottom, inserts into standard uprights and securely hold Grid Uprights

4. Tile Installation

Tiles securely press-fit onto frame cross bars - no fasteners required. A four-foot shelf can hold up to 250 pounds

5. Tile Construction

Tiles are molded out of durable, recyclable ABS plastic that is optimized for cooler airflow

6. Accessories

Variety of plastic and wire fences and dividers available, utilize front slots and shelf perforations

7. Shelf Frame Assembly

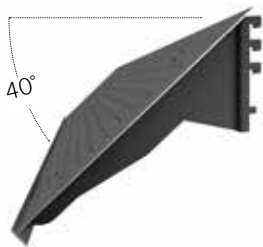

Frame ships knock-down to save freight. Snap cross bars onto side brackets for secure fit

8. Adjustable Shelf Angles

Adjustable angles with four different shelf positions: 0°, 10°, 20°, and 30°

ModoShelf Slant shelves have a fixed, 40 degree angle and fit into standard cooler uprights

ModoShelf™ Slant Produce System

Reduce shrink significantly and keep produce looking fresh!

The angled shelves of ModoShelf Slant promote first-in, first-out stock rotation, which ensures produce always looks fresh – resulting in sales lift. ModoShelf Slant is typically set-up as a 3-tiered display consisting of 14” deep shelves on top, 20” deep shelves in the center, and 26” deep shelves on the bottom. All shelf brackets are permanently fixed at a 40-degree pitched angle.

ModoShelf Slant is designed to look like an organized “wall of produce,” making the case look full while carrying relatively low inventories to reduce shrink. There is no need for inventory blockers, dummies, or other extra components, as the steeply pitched angle of the shelves creates a physical limit to how much product employees can place on the showroom floor.

Asparagus / Herb Tray

Variety Bin

Gravity-Feed Root Bin

Item No.	Style	Dimensions	Pack

9923210513	Gravity-Feed Root Bin	20” D x 24” W x 8.5” H	1

Modoshelf Wall

- Perfect for the “Wet Wall of Produce”, ModoShelf accessories allow you to customize the way you merchandise various product shapes and sizes with a minimum amount of product on the showroom floor.
- Boost sales and reduce shrink by forcing a higher rate of rotation, keeping your produce section looking fresh. Construct stunning, lavish displays without the need for large inventory.
- Unlike other “wall” systems which block cold air from the rear and allow it to drop down behind the racks; building the displays on shelves helps facilitate air-flow from the rear of the case like a natural air baffle. Large holes in the inventory control panel allow air to pass through easily and over the produce to the front air curtain of the refrigerator.
- Also, all blocker panels, dividers and shelf deck tiles remove quickly and easily for cleaning; then pop right back into place without needing to dismantle and rebuild entire Plan-O-Grams. No need to mess with large, cumbersome floor-to-ceiling racking!

Item No.	Description	Dimensions
9924312060	Blocker	-
9924312066	Divider	-

Additional colors can be made to order (minimum quantities apply).

ModoShelf™ Pods

ModoShelf™ Pods are a creative way to enhance the visual appeal of bulk produce that maximizes sales and profits. Rounded Pod shapes allow you to organize and separate individual categories and help visually distinguish specialty products, while also limiting the amount of product on the showroom floor – reducing shrink!

Additional colors can be made to order (minimum quantities apply).

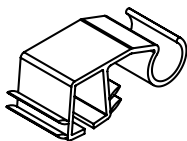

Well Merchandiser

The Modos Well Merchandiser is a truly innovative merchandising rack that is designed to install into the bottom (well) of refrigerated display cases, replacing the need for existing wire racking. This food-safe deck prevents smaller products and loose debris from falling between the wires of conventional racking. The Modos Well Rack eliminates the need for unsanitary case liner, while still utilizing a surface that reduces bruising.

- Cut the tedious cleaning process down dramatically and replace rust-prone wire racks.
- NSF Certified; easily-removable top deck constructed out of ABS plastic, which is dishwasher-safe and can be quickly cleaned and sanitized.
- Remove the deck for easy access to the “plenum” for deep-case cleaning and maintenance – no need to completely dismantle the Plan-O-Grams sections at a time.
- Add accessories for merchandising flexibility; ModosShelf Dividers and Blocker Panels snap onto the deck to create customizable, virtual bins in the bottom of the display case. Black wire (comes pre-assembled) or clear PETG front product stops (sits separately in front of rack, on top of mounting pins) are also optional features.
- Extends from 24” to 37” front-to-back to fit into various-depth cases.
- Sold in packs of 2 racks per case.

NEXT® 2.0

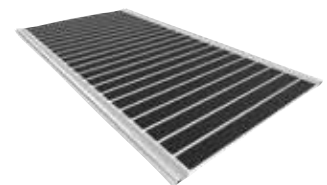

- NEXT® 2.0 Pull-Out Tray and Bar Tray hooks directly onto mounting bars or utilize the NEXT 2.0 Shelf Trays with the front shelf-mount rail to affix directly onto ModoShelf itself.
- Compatible trays available in 13", 15", 17" and 19" depths
- For a clean in-line look, NEXT® 2.0 Tray depth should be 1" more than ModoShelf™ depth (eg. use 15" D tray with 14" D shelf)
- Pull-Out Tray extends 2/3 of the total tray length
- Pull-Out Tray makes it easy to load product into cooler sections
- Divider sides are expandable, to hold products between 4.6" to 10.5" wide
- Available with or without baffles
- A locking paddle makes loading and re-loading product a snap; paddle automatically releases when tray is closed
- Patented
- NSF Certified

NEXT® 2.0 Bar Tray

Roller Track™ Gravity Feed Shelf

- Gravity-feed design uses integrated rollers to self-face product
- NSF Certified
- Products remain visible and easily accessible
- Easy to install, stock, and reset to minimize labor
- Ideal for beverages, dairy, cleaning products, and convenience items
- Can be used in front- and rear-loading coolers
- Durable, long-lasting solution reduces waste and carbon footprint

Power Zone® Kwik-Set™ Standard Kit

- Fastens directly to ModoShelf with molded-in clips; no external fasteners necessary.
- Includes Kwik-Connect™ Front Fence, Left End Divider, Center Push Dividers, Center Push Right End Divider, Center Pusher Tracks
- Product Stop is 1.75" H

* May be covered under one or more system patents.

Create a tiered produce display with Fresh-Fit® RPC Bin Direct Hook-In Shelves and Bins

RPC Display Bin

Fresh-Fit® RPC Bins

- Keep fruit and vegetables fresh and ensure the best temperature control by utilizing reusable packaging container (RPC) bins.
- RPC bins have walls that fold down for efficient storage when not in use, and are stackable once the walls are snapped quickly into the raised position; protecting the product inside from damage.
- A sustainable product, RPC bins are reusable over many years and are constructed from a recyclable polypropylene material.
- The ventilated design maximizes product freshness and quality and is ideal for point-of-sale displays.
- The ergonomic handles allow for efficient handling and reduce labor by simply replacing empty bins in a display with fully merchandised bins straight from the back room.
- Also suitable both refrigerated and dry displays and can also be used for meat, eggs and bakery products.

Item No.	Style	Dimensions	Pack
9923716096	RPC Display Bin	16" W x 24" L x 4.5" H	1
9923719852	RPC Display Bin	16" W x 24" L x 6.5" H	1

RPC bins are available in additional sizes and colors. Call for details.

Adjustable Flat Rack

Fresh-Fit® RPC Bin Accessories

Facer Plate

- Facer Plate fits over wire flat rack; prevents RPC from sliding to rack bottom
- Without Facer Plate, RPC slides to bottom and blocks air vents causing an interruption in the air curtain
- 16-gauge black powder-coated steel with 2" H lip and rust-resistant undercoating

Dividers

- Black ABS divider, splits RPC into 2 equal compartments

Divider - Width

Item No.	Style	Dimensions	Pack
9925813223	Facer Plate	24" W x 4.75" D	1
9923219252	Divider - Width	14.25" x 22"	1

** For complete use and care instructions, see <https://siffron.com/pages/e-coat-use-and-care>*

Fresh-Fit® Demi Curved-Front Bowls

- Durable, heavy-weight melamine plastic bowls in an attractive round design
- Special shape of these bowls is ideal for merchandising on mezzanine shelves, case wells and island cases
- Back of the oval is squared to maximize shelf space
- Bowl interior is smooth for easy cleaning
- Available in two styles: solid or with drain holes for misted application
- Black melamine (pictured terra cotta is available made to order, minimum quantities apply)

With Drain Holes

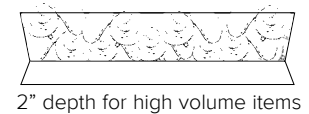

Solid

Item No.	Style	Dimensions	Pack
9922119905	Solid	12" W x 16" D x 3" H	1
9922116930	Solid	12" W x 14" D x 3" H	1

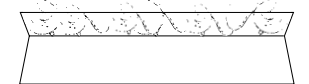

Additional colors can be made to order (minimum quantities apply).

Fresh-Fit® Reversible Plastic Baskets

- Create a full-looking display while reducing inventory and shrink
- Basket eliminates need for basket dummies with 2" product depth on one side and 1" product depth on reverse side
- Drain holes make these suitable for misted applications
- Angled sides create a natural basket look
- Black ABS plastic

2" depth for high volume items

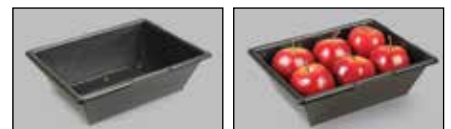

1" depth for high shrink items

Item No.	Style	Dimensions	Pack
9923013241	Reversible	12" W x 16" D x 3" H	1

Fresh-Fit® Vacuum-Formed Plastic Display Baskets

- Merchandise variety and specialty produce in durable plastic display baskets
- Smooth interior and exterior finish provides an easy-to-clean surface for improved sanitation at store level
- Recessed area on two sides of basket accepts sign tag clip
- Baskets stack and nest for convenient storage
- Available in several sizes with or without drainage holes
- Black vacuum-formed high-impact ABS plastic

Basket with Holes

Item No.	Style	Dimensions	Pack
9923017135	Basket w/ Holes	12" W x 16" L x 3" H	1
9923015698	Basket	12" W x 18" L x 3" H	1
9923014964	Basket w/ Holes	12" W x 18" L x 3" H	1

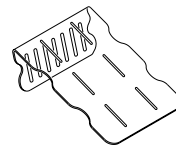

Ideal for bakery items such as croissants, rolls, and bagels

Fresh-Fit® Pull-Out Bulk Merchandiser

- Customer-friendly merchandiser organizes produce and prevents cross-contamination
- Ideal for bulk items such as leafy greens, mushrooms, beans, peas, garlic, and bakery items
- Clear construction and pull-out drawer allow easy visibility and convenient shopping
- Attaches to most perforated produce shelving including Fresh-Fit® Thin Profile 16" shelves or deeper (fasteners included)
- Easy cleaning with two removable internal bins
- Integrated shelf glides ensure smooth operation
- Includes tongs with tether (attached to bins) for convenient customer selection; replacement Tong w/ Tether also sold separately
- Optional Dummy Riser Insert for bin
- Design and materials are NSF compliant and safe for direct food contact

Pull-Out Bulk Merchandiser

(Optional) Dummy Riser Insert

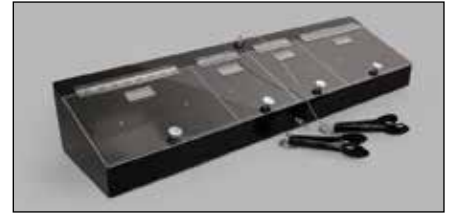

Replacement Tong w/ Tether

Item No.	Style	Dimensions	Pack
992310151	Pull-Out Bulk Merchandiser	23" W x 16.17" D x 8.5" H	1

Two-Step Tray

Fresh-Fit® Asparagus Step Tray

- Tray features a stair step design to create an attractive display using minimal product
- Watertight construction holds ice or water in base of steps
- Bundled product stands on end to prolong delicate freshness of asparagus
- Two-Step Tray fits on shelves 20" D or greater
- Three-Step Tray fits into cooler wells
- Off-season, the tray can be used for featuring brussels sprouts, fresh herbs or variety items
- Easy-to-clean one-piece design
- Vacuum-formed black ABS plastic

Item No.	Style	Dimensions	Finish	Pack
9922816276	2-Step	11.5" W x 20" D	Black	1

Basket with Insert

Fresh-Fit® Asparagus/Herb Merchandiser

- Merchandise asparagus, herbs and other specialty produce
- Basket features a smooth interior and exterior finish to provide an easy surface for improved sanitation at store level
- Basket holds water or ice to keep product fresh
- Recessed area on two sides of basket accepts sign tag clip
- Baskets stack and nest for convenient storage
- Insert fits securely into Basket and features 12 cut-out holes for stand-up merchandising
- Insert holes ensure product will not fall over as display is shopped
- Basket is black vacuum-formed high-impact ABS plastic
- Insert is a clear flat plastic sheet

Item No.	Style	Dimensions	Pack
9923015698	Basket	12" W x 18" L x 3" H	1
9922819440	Insert	12" W x 18" D	1

Fresh-Fit® Vacuum-Formed Herb Tray

- Organize packaged herbs attractively on cooler shelves
- Holds 16 containers
- Black vacuum-formed ABS plastic

Item No.	Dimensions	Finish	Pack
9924210001	9.5" W x 12.5" L x 1.75" H	Black	1

Fresh-Fit® Gravity-Feed Root Bin

- Bottom is adjustable and can be used flat for higher inventory or angled to facilitate first-in, first-out replenishment and keep product towards the front of the bin
- Great for merchandising root/bulk vegetables in the well of the case
- Wire front product stop provides visibility of product and matches the design of the wire product stops on the Fresh-Fit® Thin and Vertical systems
- Can be used to transport product
- Fits onto Fresh-Fit® Convertible Flat Rack or wire racks in the well of the case
- Black coated aluminum bin with removable divider; black steel wire front fence

Item No.	Dimensions	Finish	Pack
9923210513	20" D x 24" W x 8.5" H	Black	1

Fresh-Fit® Aluminum Gravity-Feed Bins

- Angled design facilitates first-in, first-out replenishment and keeps product toward the front of the bin
- Great for merchandising salad, mushrooms and specialty items
- Clear front product stop provides visibility to product
- Can be used to transport product
- Fits onto Fresh-Fit® Convertible Flat Rack
- Available in two sizes: 24" width and 12" width
- Coated aluminum for long-term solution

Item No.	Dimensions	Finish	Pack
9923110004	24" W x 22" D x 6.75" H	Black	1
9923110005	24" W x 12" D x 6.75" H	Black	1

Power Zone® Kwik-Set™ Self-facing System

The Power Zone® Kwik-Set™ Self-facing System is a labor-saving, component-based merchandising system flexible enough to accommodate the widest range of product shapes and sizes throughout the store. The System provides a single solution for total shelf management. To further increase the convenience and labor savings of self-facing, the Tracks and Dividers can be easily added, removed or adjusted by sliding along Front Rail – all while product remains on the shelf.

- Dividers and Tracks engage and disengage easily for trouble-free installations and quick set changes
- Offering unlimited spacing configurations, Dividers and Tracks can be adjusted by sliding along Front Rail
- Spring-loaded lock tab allows easy adjustment of facing width, even with product in place; tab automatically locks into place, maintaining facing width integrity
- Center push configuration features separate pusher track and divider to provide consistent, center-of-product force for most packaging shapes and styles, including round and irregularly-shaped products, and minimizes need for multiple pushers on large products
- Integrated clear front lens provides unobstructed view of products
- Available with Kwik-Connect™ Front Rail to attach to shelf without the need for separate fasteners
- Compatible with all Power Zone® Sure-Set™ Paddle Extenders and Adapters
- Components can ship pre-assembled for box-to-shelf installation to minimize labor, or in bulk by category to minimize freight

May be covered under one or more system patents.

Fits a wide range of shapes and sizes

Kwik-Set™ Slow Feed Pusher

- Slow-Feed Pushers use a special spring dampener to decelerate the pusher and make merchandise move forward at a much slower pace than standard pusher systems.
- Ideal for stacked products, delicate products and loss prevention
- Available in 2 spring strengths; low force - 4128202025, high force - 4128205025
- Available in black and customized length

Item No.	Ref. No.	Dimensions	Finish	Pack
4128202025	PZKWIK-WSTP-SLOW-150E-20BK	20"	Black	1
4128205025	PZKWIK-WSTP-SLOW-150J-20BK	20"	Black	1

Kwik-Set™ Extend-A-Track

Extend-A-Track™ works by using a recessed paddle-pusher to allow for more merchandising space on each pusher track. This also allows for commonality across multiple shelf depths so store retailers can use the same pusher tracks (between 2" shelf depth differential). It also accommodates odd number shelf depths (13", 15", etc.), increasing merchandising efficiency.

- Available in black
- Available on 10", 12", 14", 16", 18", 20", 22" and 24" deep tracks

Item No.	Ref. No.	Dimensions	Finish	Pack
4128502023	PZKWIK-EXT-7E-16BK	16" D	Black	1

Kwik-Set™ V-Fence

The V-Fence Track Lens snaps individually on Wide Base Tracks, only where needed. Ideal for large, round products, such as paper plates. Prevents product from tipping forward.

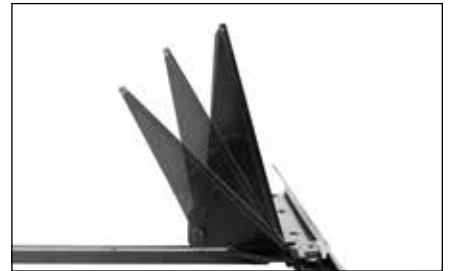

Item No.	Ref. No.	Dimensions	Finish	Pack
4125401400	PZKWIK-WPST-225	4.5" H x 9" W	Clear	1

Angle Pusher

Pusher Track with adjustable angle paddle allow merchandising product at 15, 30 or 45 degrees. The angle prevents product from tipping forward and also product to be merchandised in limited vertical space. Use in conjunction with the Angle Track Lens for optimum performance.

- Prevents taller merchandise from tipping while being faced
- Keeps product secure
- Easy to install – just snaps onto back of FACER frame
- Available on 16”, 18”, 20”, 22” and 24” deep tracks
- Available in black and customized length

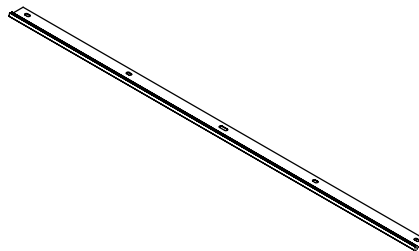

Item No.	Ref. No.	Dimensions	Finish	Pack
4128606026	PZKWIK-WADJPDL-250M-22BK	22”	Black	1

Power Zone® Pre-Set™ Self-facing System*

Delivering breakthrough results for retailers, brand marketers and consumers, the revolutionary Power Zone® Pre-Set™ Self-facing System takes merchandising, loss prevention and profits to a powerful new level. Power Zone® is the only system on the market that generates the sales boost and time- and labor-savings you're looking for, plus ships pre-assembled for fast box-to-shelf installation. And, in a recent study, Power Zone® helped a major retailer reduce inventory shrink by up to 95%[†] in key product categories.

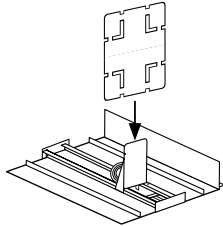

- Ships pre-assembled and ready to place on the shelf, saving 40% or more in installation costs versus non-preassembled systems
- One-piece design allows super-fast setting and re-setting of shelves and categories
- Product is automatically advanced so every product is prominent and accessible
- Durable high-impact plastic Front Fence resists breakage and offers crystal-clear clarity, as well as deters "shelf sweeping theft"
- Track/Dividers adjust to accommodate nearly any product shape or size for a universal solution
- Attaches to shelving with fasteners, screws, or with optional adhesive
- Optional made-to-order Label Strips on Front Fence can be color-coded or printed to specifications for easy product, brand or category identification
- Optional Extend-A-Track™ paddle allows one system to fit multiple shelf depths

[†]Based on a 9-month study conducted by a major drug store chain.

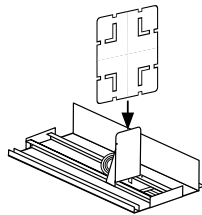

*May be covered under one or more system patents.

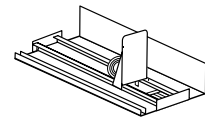

Standard 6 Facing Kits for Salad
Includes 6.125" W Track/Dividers
(Maximum Additional Facings for 48" shelf = 1)

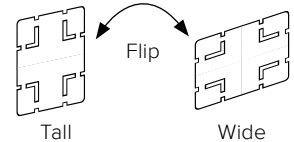

Standard 8 Facing Kits for Bagged Vegetables
Includes 3.9375" W Track/Dividers

Standard 11 Facing Kits for Herbs
Includes 3.9375" W Track/Dividers
(No Additional Facings will fit on a 48" shelf)

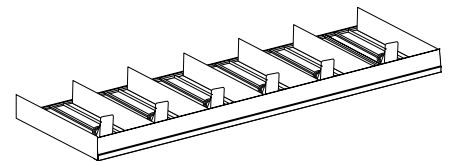

Accessories
Flip Paddle Extender to push tall or wide product

Power Zone® Pre-Set™ Self-facing System* - Kits

- Each Kit comes pre-assembled with a pre-determined amount of facings depending on the system.
- Front Fence is 3" H x 48" L
- Track/Dividers are 2.25" H
- Front Fence and Track/Divider are high-impact plastic
- Springs are stainless steel, variable force
- Additional facings are available to slide into system, sold separately
- Optional Drop-in Track serves as a second pusher to self-face wide or heavy product

[NEXT] 2.0

The next generation for organized and accessible retail display

With the NEXT® 2.0 Merchandising System, retailers save valuable retail space and can stock additional products per tray. NEXT® 2.0 offers the following features:

- The only NSF Certified tray on the market
- Attractive construction of plastic divider and pusher paddle reduces overall weight and cost
- Uniform size of pusher paddle and front product stop to maintain consistency across packages and categories
- Pusher paddles extend to the back of tray to hold more merchandise
- Divider ledge secures wide boxed and bagged products
- Durable wire frame expands from 4.6" to 11" to accommodate a wide variety of package shapes and sizes. HD Wide Trays hold even more.
- Three tray mounting styles available: bar mount, shelf rail mount and grid mount.
- Trays fit on Fresh-Fit® Thin Profile Shelving System mount bar to organize and face salads and other bagged produce

Without NEXT® products appear unorganized and unattractive. It is difficult for the consumer to find what they are looking for and to distinguish between brands.

The NEXT® System creates “product billboard”- a wall of product that enhances category and brand awareness. This helps provide better rotation for time-sensitive products.

Increase Sales

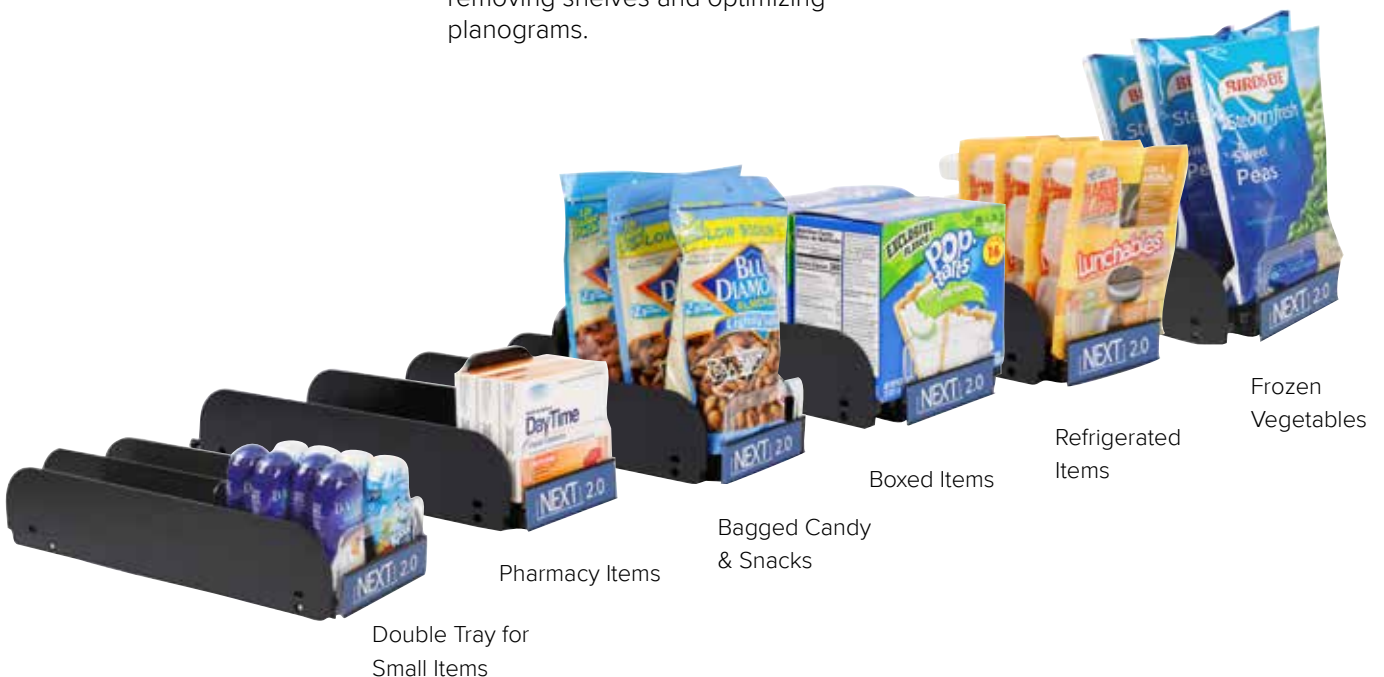

Increase sales 10-15% through enhanced product appearance. Average ROI of eight months.

Increase merchandising space

Increase the number of facings in a section by as much as 30% by removing shelves and optimizing planograms.

Reduce labor costs

Upon product removal, each product is faced with spring-loaded action.

A tray size for every display

The NEXT® Tray Merchandising System allows retailers to maximize merchandising space and improve product visibility. Each item remains faced and visible to the customer for easy product selection.

By incorporating the NEXT® System into a planogram, retailers can eliminate expensive shelving and put more product in its place.

NEXT® 2.0 allows retailers to further streamline appearance and simplify labor while saving money. The pusher paddle extension allows for easy and complete product stocking.

Standard trays expand 4.6" - 11"

Accessories and Options

Flip Front Trays

The front fence folds down as it is pressed from the front to load product into the tray for an easy one-hand operation. The fence is spring-loaded to pop back up into an upright position and hold product in place as every last item is faced forward.

Double Paddle Insert

The Next® 2.0 increases product capacity with the Double Paddle Insert. Smaller products are neatly displayed and are accessible. The Double Paddle Insert is available for all tray sizes and styles. Contact siffron for a custom quote.

Organic Fence

Showcase organic products with the optional NEXT® 2.0 organic front fence. This versatile attachment replaces the standard front fence and highlights the display.

Integrated air baffles

The NEXT® 2.0 is also available with baffles to ensure temperature is maintained at the optimal level and product is kept fresh from the back of the cooler to the front. NEXT® 2.0 baffles come installed into the tray already – requiring no additional assembly. Note: NEXT® 2.0 standard version with integrated baffles can expand up to 7.75", while the HD Wide with baffles version opens 6" - 12".

LED Lighting

Looking for a way to draw customer attention to your retail space? Perfect for promoting impulse purchase items such as candy.

Under refrigeration testing, the NEXT® 2.0 has proven it supports the critical air curtain required for optimal preservation of frozen or chilled merchandise, allowing the unit to hold proper temperatures.*

*Unit must be properly installed and merchandised

NEXT® 2.0 (Bar Mount)

- Design of tray mount allows trays to span over bars, creating a continuous flow of merchandise
- Standard 4.6” wide tray frame
- 1” bar available in various lengths
- Multiple label holder options or Digital Etags available
- Universal bracket fit all uprights
- Various spring strengths and quantities can be used (available for HD Wide Trays only)
- Divider ledge provides support for full width of product
- Adjustable side dividers (custom styles available)*
- Custom front fence heights available as well as different label holder options*

*Consult manufacturer for custom options

NEXT® 2.0 Bar Tray

- Tray is available in black 13”, 15”, 17”, 19”, and 21” depths
- Bar Tray expands from 4.6” to 11” wide with dividers

NEXT® 2.0 Bar Tray with Baffles

- Baffles ensure temperature is maintained at the optimal level and product is kept fresh from the back of the cooler to the front
- Tray is available in black 15”, 17”, 19”, and 21” depths
- Bar Tray with Integrated Baffles can expand from 4.6” up to 7.75” wide

NEXT® Bar

- One bar style fits all uprights in gondolas, coolers, freezers
- Works with NEXT® trays with bar bracket holders in back
- Available in 30”, 36” and 48” lengths
- 1” square ends with mounting brackets

4eBin™ Gravity Bin

A bulk offering is an effective use of store space and creates differentiation. Introducing bulk bins as an easy way of enlarging or adapting your product offering to meet the needs of your local market demands.

Create destinations within your store where shoppers can engage fully with pick & mix of nuts, candies or cereals. Not only do bulk bins encourage greater interaction, they also give consumers more freedom to purchase the exact combination and quantity of the product they want.

Ecological A more “eco-friendly” way of shopping. Fewer resources are used in both transport and packaging.

Economical Lets shoppers buy their desired quantity and favorite mix.

Ergonomic A delight to handle for shoppers and store personnel alike.

Easy-Clean Revolutionary design allows for cleaning the bin without removing them from the shelf.

Revolutionary new easy-clean design

The GB4e100-12, 5L product is NSF Certified under HL Display Gilwice Sp. Z.o.o.

Why bulk bins are so effective:

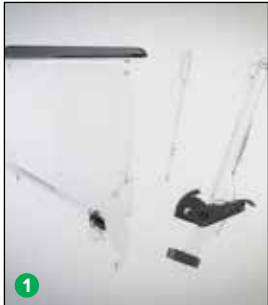

- Product visibility stimulates impulse purchases
- First in / first out product guaranteed
- Ergonomic and anti-microbial pull handle provides a consumer friendly interaction
- Easy to install using a cross-bar system or your existing shelving
- Easy cleaning thanks to innovative design

Easy to
install
and
maintain!

Up to **30%**
Time Saving

(Compared to bins in the market)

4eBin™ Gravity Bin Features and Benefits

Features	Benefits
Bin fully assembled (1)	Easier mounting and dismounting
Ergonomic front cover	Easier to remove for cleaning
False front*	Bins always look full and displays the content
Dust proof lid	Designed to avoid dust / dirt traps

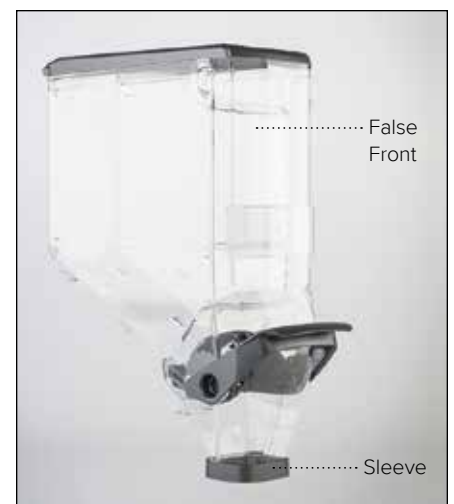

Features	Benefits
Smooth design of the nozzle (2)	More compact design
Ergonomic pull handle (3)	Provides a consumer friendly dispensing action
Easy refilling (4)	Removable lid with open / close function and refilling position
Stock level (5)	Remaining stock can be read from side of bin

*Optional feature to have a full face display even at low stock levels

4eBin™ Gravity Bin Specifications

- Available in 2.0, 3.3 and 5.3 gallons
- Hygienic closed system - consumers can see, but not touch the product unless buying
- All models available with or without false front depending on customer needs
- Standard flow control and ergonomic handle for optimal shopping experience and shrink reduction (first in / first out principle)
- A 5 gallon bin can sustain 44lbs of merchandise
- Transparent body; top lid, handle and sleeves are black as standard
- Additional color options available upon request
- US and European food contact certification (all bins are BPA/EA-free)
- Label printing area 5.5" W x 2.28" H (label holder for 6" wide bins)

Scoop Bins

Improve customer interaction and differentiate from competitors by adding bulk Scoop Bins into your retail environment. Bulk Scoop Bins provide customers the opportunity to pick and mix various products at their discretion.

Using product scoops attached to each bin, customers can fill up as much or as little product as they require. This reduces packaging waste and ensures the displayed product is consumed without waste.

Scoop Bins grab customer attention, are easy to use, and improve overall gross margins versus similar pre-packaged products.

- Why Scoop Bins are so effective:
- Allow customers to pick and choose merchandise
- Portion control - less waste
- Easy to use
- First in / first out - guarantees freshness
- BPA/EA-free

Item No.	Style	Dimensions	Capacity	Pack

Scoop Bin Specifications

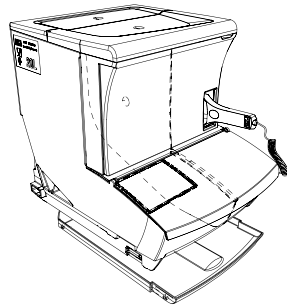

The angled floor of our Scoop Bins promotes automatic stock rotation to ensure product freshness and quality. Re-merchandising is done through the top which can be fully removed or just opened.

If mounted on crossbar, the Scoop Bin can be pulled out for easy refill without having to remove the bin from the fixture. The Scoop Bins are sealed and have hinged, dust-proof covers to protect merchandise from external contact.

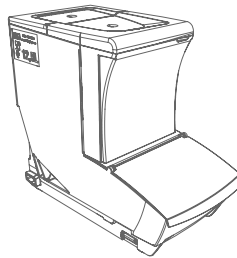

- Scoop Bin can mount onto crossbar with brackets or onto shelf with cylindrical bumper buttons
- Available with or without divider
- Includes catch tray for easy removal of crumbs and sugar
- Use optional shutter to slow the flow and avoid accidental overfilling
- For long or otherwise cumbersome merchandise, we recommend replacing the scoop with Tongs (sold separately)
- Our Scoop Bins can be equipped with a perpendicular holder to support shelf talker or aisle sign to communicate to customers
- Transparent body; scoop and top lid black as standard
- Additional colors available on request for improved segmentation

GoMix™ Pick & Mix Display

Improve customer interaction and differentiate from competitors with the GoMix™ Pick & Mix bulk merchandising display. Customers get a more interactive shopping experience that lets them select as much product as they want at their discretion. Retailers get the added benefit of first-in, first-out product rotation, reduced spoilage, and increased sales!

The GoMix™ Display is versatile and is easy to integrate into new or existing store planograms. It's a complete merchandising station with four shelves to display bins. GoMix™ features an assortment of scoop bins, bag holders, and other accessories which can be adapted to accommodate store needs. The base of the rack is equipped with a scrap collector to collect and hide spilled products.

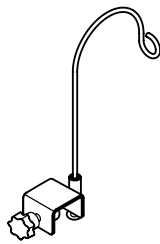

- Bins pull out for easy refill, cleaning and planogram changes.
- Soft closing lid prevents lid from closing on consumers hands while shopping.
- Integrated sugar tray
- Externally placed label holder facilitates quick change of photo fronts/bin labels.
- Number of scoop and bag holders can be adapted to each store.
- Waterfall display for easy consumer access to each bin and maximum visual impact.
- Integrated scrap collector to maintain a fresh looking display. Pulls out for easy scrap removal.

WICKER BASKET DISPLAYS

RSC-0007 Clips onto Basket

Wicker Basket Displays – Floor Stands

Versatile stand configurations are available to meet a wide variety of store needs. Display stands are designed for wicker baskets to drop right into place. No additional components or fasteners necessary. Wicker Basket Displays can be disassembled quickly and knock down for easy storage and shipping. Units are packed 1 per box and are dishwasher safe for easy cleaning.

- Multi-tiered (2 or 3 levels)
- Sturdy wire-formed structure
- Brown synthetic wicker baskets
- Great for impulse buy displays
- Baskets are food grade quality and dishwasher safe
- Square baskets are 13" L x 13" W x 4" D
- Round baskets are 15" dia x 4" D
- A variety of Swivo•Clip™ Sign Holders are available (call for details)
- Custom Wicker Basket Display are available (call for details)

Item No.	Ref. No.	Style	Overall Dimensions	Pack
7704590673	RWKR-3TSF	3-Tier Square	38" H x 13.5" W x 16" D	1

Wicker Basket Displays – Liners

Clear plastic liners for wicker baskets are also available for fast clean-up. Some types of merchandise (fresh produce) can leave behind residue or other particulates. Plastic liners fit snugly within the wicker baskets and do not detract from store branding or basket display. To clean, simply remove merchandise and plastic liner, use siffron's Power Clean solution on a clean paper towel for safe, effective cleaning.

- Protects basket display integrity
- Easily removable
- No extra fasteners required
- Hygienic and food-grade quality
- Use Round Liner with 2-Tier and 3-Tier Round Baskets
- Use Large Rectangle Liner with 1-Tier Large Rectangle Basket
- Use Rectangle Liner with 1-Tier Rectangle and 2-Tier Rectangle Baskets
- Use Square Liner with 3-Tier Square Baskets

NSF Stainless Steel Display Pans

In fresh food retail, customers require freshly prepared foods and clean pans and other small ware displays to showcase them.

Stainless Steel Display Pans are the ideal choice for transporting, storing, and displaying food products. Designed for durability and food safety, all components are constructed from rust-proof stainless steel and NSF certified with rounded corners to ensure pans are easy to clean. No sharp corners or crevices for bacteria to hide.

Drain inserts* nest perfectly into each display pan to lift product off the bottom, improving air circulation and keeping foods fresh longer!

With food safety concerns at an all-time high, Stainless Steel Display Pans are a must-have for meat and seafood departments, and also excellent options for deli and bakery foods – cooked or fresh.

- Made with heavy-duty 16 gauge, 304 stainless steel construction
- Large, round corners are easy to clean
- NSF Certified

Neatly organize heavier pegged products like meat and cheese

Mega Bar

Get more out of your display space with the new Mega Bar Peg Display System. The Mega Bar is a strong, durable display system that allows for cleaner, more effective product facings while being adaptable to various display applications. The Mega Bar will handle heavy loads as it utilizes the strength of the gondola uprights. Its steel tube construction increases weight bearing capacity as well, which increases product pack-out!
