Turtle is the ultimate all-in-one security sensor that keeps your high-theft packaged goods and demo devices safe and secure! Whether you need to protect display products or boxed merchandise, Turtle has you covered. Use it independently or pair it with a variety of accessories to fit your unique security needs. With multiple sensor heads—you can secure everything from demo units to retail packaging with ease!

Turtle 2—the next generation in smart security! Building on the original Turtle's power, Turtle 2.0 now integrates EAS gate functionality for even stronger protection. With improved sensitivity to prevent false alarms and a more streamlined installation, this new model ensures maximum security while reducing hassle for retailers. Its sleek, refined design fits securely onto boxed items and protective strapping, making it virtually impossible to remove without the proper detacher!

Meet Mini-Turtle! With a smaller, lower-profile design, Mini-Turtle provides the same unbeatable protection as its larger counterpart while maintaining a sleek, minimal footprint on retail items. Just like Turtle 2, it features EAS gate functionality, improved false alarm prevention, and an easy installation process, making it the ultimate theft prevention solution for compact or delicate products.
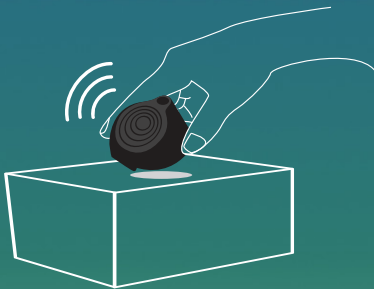

Upgrade your loss prevention strategy today with Turtle, Turtle 2, and Mini-Turtle—because when it comes to protecting your products, nothing beats a Turtle!
