

- ① **LOAD** product into box. Product should be facing you. Bend strip to expose tabs.

- ② Start with the last package in the box and the bottom tab on the strip. Insert tab through hang hole of package. Lock tab in place. **FOLD** strip forward in front of package. Fold strip up at perforation to expose next tab.

- ③ Repeat procedure until complete. Close box and ship.

- ④ Open box. Grab top of merchandising strip and lift out of box. Hang as desired.
