

Specifications:

Material Type: appropriate for many types of media substrates including vinyl, fabric, laminated film, and more that are pliable and easy to roll.

Material Requirements: 15 mil maximum.

Material Printing: print materials on one side only.

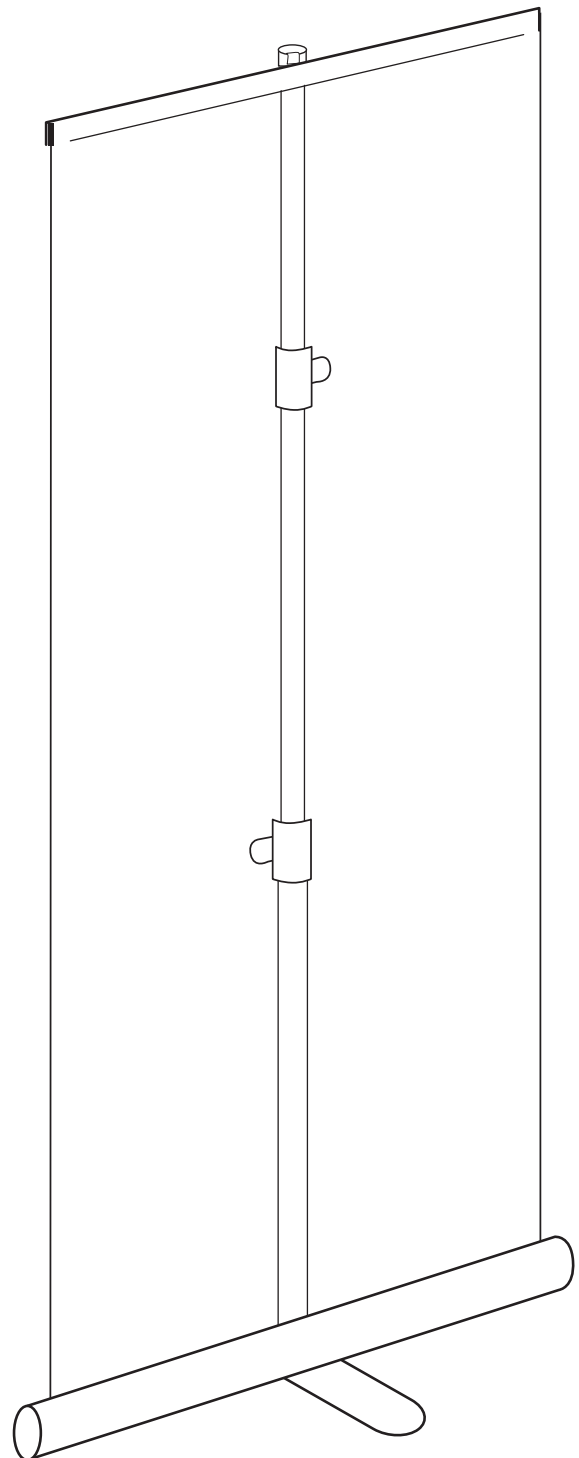

Banner Size: the width of the retractable style will determine the width of the banner itself, but the minimum height is 36 inches minimum and can go up to 8 feet.

Special Note: please leave a 2 inch bleed on the bottom of the banner to allow for it to be attached with hook and loop to the roll within the base and then come up through the slot.
