

ModoShelf™ Pods

Features and Benefits

- ◆ NSF Certified
- ◆ Easy-to-Clean – Removable ABS tiles are 100% dishwasher safe
- ◆ Easy-to-Install – no tools required
- ◆ Frames are made with a zero-rust, 304 stainless steel construction
- ◆ Frames are powder coated black to enhance corrosion protection.
- ◆ Interchangeable fencing – black wire and clear plastic product stops are available and easily removable.
- ◆ Adjustable angles with four different shelf presentation angles: 0°, 10°, 20°, and 30°

ModoShelf™ Pods

ModoShelf™ Pods are a creative way to enhance the visual appeal of bulk produce that maximizes sales and profits. Create a dramatic landscape to draw attention to the beautiful colors of your produce and spur impulse sales. Rounded Pod shapes allow you to organize and separate individual categories and help visually distinguish specialty products, while also limiting the amount of product on the showroom floor – reducing shrink!

ModoShelf™ Pods are perfect for showcasing products in bulk produce such as apples and oranges, gourmet cheeses, and much more! Using the same ModoShelf™ design that is fully NSF-certified, the plastic tile construction allows for easy disassembly to quickly and efficiently maintain cleaning protocols for equipment that comes into direct food contact regularly. The lightweight design also allows it to be setup easily by one person, without sacrificing strength and durability as each shelf is weight-rated to 150 pounds.

Specifications

Item No.	Description	Dimensions
9924312074	ModoShelf MiniPods	48"W x 12"D (Each full round is 12"W)
9924312140	Full kit with 2 - 24" with shelves	48"W x 16"D (Each full round is 24"W)
