- ◆ Ships knock-down or fully assembled

Customize fresh produce displays

ModoShelf Table Merchandiser is an all-new innovative display created for merchandising in the free-standing Produce Display market. It is designed to provide grocers with a solution that can grow as their display and merchandising needs change.

Customize the angle of the display table in 4 different positions, from flat to a 35° tilt forward to maximize the viewing presentation. The ModoShelf tiles can be quickly removed/replaced for easy cleaning, eliminating any food safety concerns that could develop over months and years of direct contact with various fresh items. A variety of product stops, risers, dividers and even cross-merchandising shelving/baskets are available to provide the ultimate in merchandising flexibility.

With the addition of end cap tables, grocers can effectively cross-merchandise complementary items or showcase seasonal specials with ease, maximizing both visibility and sales potential.

The unit ships knockdown as a fixture and can be built easily at store level to merchandise various product categories. The ModoShelf Table Merchandiser is a great solution for increasing the product offerings being merchandised in the produce section.
