

G2 Bulk Merchandising Rack

Features and Benefits

- ◆ Pre-assembled fixture
- ◆ Less expensive than high priced gondola shelving
- ◆ 4' to outside of uprights to fit inside gondola 4' span.
- ◆ Easy to change depth of fixture, to be flush with existing gondolas
- ◆ Ships assembled on a 50" x 30" pallet

Showcase bulk merchandise — like never before

The G2 Unit is designed to be a low-cost alternative to traditional gondola shelving and bulk display setup. The G2 Unit is a pre-assembled fixture that can be used to hold Gravity Bins and other retail displays via crossbars installed throughout the height of the display. No gondola shelving required.

Setup is very easy! Unload the fixture base from pallet. Assemble catch tray, add crossbars, brackets and bins where needed. For use with both Gravity Bins (4eBin) and Scoop Bins, as well as NEXT™ trays, ModoShelf™, and more!

The G2 unit is a quick, pre-assembled gondola that is 4' to the outside of the uprights so it can fit between gondola space if necessary.

Specifications

Item No.	Description	Dimensions
