

Anti-Sweep Security Post

Features and Benefits

- ◆ Designed for laundry detergent and other bottled merchandise with enclosed handles
- ◆ Provides 3-dimensional position adjustability when using the disc along with a siffron 1" square crossbar
- ◆ 16"-24" adjustable depth, allows for a single SKU solution to accommodate 8 shelf variations
- ◆ Non-impeded side-to-side shifting of the post on the bar accommodates any changes in POG spacing.
- ◆ The spring loaded disc requires 2-hand manipulation to shop merchandise; and limits sweeping.

Stop Theft of Frequently Targeted Cleaning Products

Protect your laundry care products with the Anti-Sweep Security Post, a smart and effective solution designed to deter theft and secure bottles with enclosed handles, such as laundry detergents and other specialty cleaners. In response to growing theft concerns in the laundry care category, this security post offers a robust yet shopper-friendly way to protect your merchandise.

Mounting securely on the siffron 1 inch square crossbar for vertical planogramming, the Anti-Sweep Security Post provides an easy and efficient display staging with minimal setup time. Customers can access the secured products without needing store assistance, and the two-hand operation required to unlock the disc prevents sweep theft while keeping merchandise open for honest shoppers.
