

# Infant Formula Merchandiser

## Features and Benefits

- ◆ Gravity feed design self faces product
- ◆ Push lever tilts can forward for dispensing
- ◆ Merchandiser locks to prevent unauthorized access to inventory
- ◆ Incorporated fixture "lock down" option prevents unauthorized dispensing during reduced staffing, evening hours, or in very high-theft areas
- ◆ Merchandiser installs on top of standard gondola shelving and is secured into place by locking wingnuts (included)

## Single dispensing prevents shelf sweeping

The gravity-feed Infant Formula Merchandiser is a sophisticated solution for retailers looking to effectively display and protect high-theft infant formula. With its integrated push lever, this merchandiser ensures that products are always front-facing and easily accessible to customers.

The clever design of the push lever tilts cans forward for effortless product retrieval, while returning them to an upright position slowly to prevent rapid multiple pulls. This not only enhances customer experience but also discourages shoplifting by preventing shelf sweeping. The single dispensing feature further adds a layer of security, ensuring that only one item can be accessed at a time. The Infant Formula Merchandiser strikes the perfect balance between convenience and theft prevention, making it an invaluable asset for any retailer looking to showcase their products effectively and securely.

The shelf pulls out for easy product rotation and restocking. Brand labels are easily visible when inserted into the front clear lens and are replaceable as well.

## Specifications

Item No.	Description	Dimensions	Facings	Pack
9924116440	Small Can	48" W x 18" D	10	1
9924119829	Small Can	48" W x 22" D	10	1
