

Security Swing Gate

Features and Benefits

- ◆ Protect merchandise on racking systems in storage rooms and other places
- ◆ Adjustable to fit heights between 12" – 24"
- ◆ Swing bay gate style allows for easy loading and removing of merchandise

Locking Bay-Gate for Hardware Racking Systems

Keep merchandise safe in back stockrooms and storage warehouses with the adjustable Security Swing Gate for warehouse racking. Easy to setup and adjust, the Security Swing Gate helps store owners protect larger items and equipment from theft.

The Security Swing Gate features bay-style swivel doors that can be adjusted to accommodate racking systems between 12" and 24" (requires adjustable door stop to be installed in some cases). The gate doors are secured to the frame via spring clips (included with purchase) to ensure the Security Swing Gate doors are effectively and reliably secured to the frame and racking system.

Note: Security Swing Gate comes with all fasteners required to install but requires a hex key allen wrench and 5/16 socket wrench.

Specifications

Item No.	Description	Dimensions	Color
4649909001	Adjustable Security Swing Gate	48" W x 12-24" H	Black
