

TURTLE Security Bands

Features and Benefits

- ◆ Three strap lengths available: 3.5", 5" and 10" for merchandise versatility
- ◆ Silicone elastic - easy to install
- ◆ Prevents false alarms
- ◆ Removes need for traditional strapping equipment
- ◆ Use with Turtle, Turtle 2 and Mini-Turtle security tags
- ◆ Reusable

5" band - stretches to fit packages up to 5"-10" in length

10" band - stretches to fit packages up to 10"-20" in length

3.5" band - stretches to fit packages up to 3.5"-8" in length

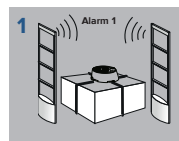

Elastic strapping to secure Turtle tags to merchandise

Turtle Security Bands solve the issue of ensuring TURTLE, TURTLE 2, and Mini-Turtle security tags are fastened securely to the merchandise retailers want to protect. Simply secure the Turtle Band through the Turtle security tag housing. If the band is cut, the Turtle alarms.

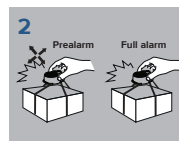

If the band is cut or removed from merchandise, the Turtle alarms.

3-level alarm system

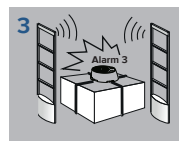

The anti-theft device TURTLE will be attached to your merchandise. If required, it provides alarm on three levels:

- 1st Alarm at the EAS gate when passing the EAS gate (AM or RF)

- 2nd Pre-alarm of the TURTLE by slight sliding or lifting
- 2nd Full alarm of the TURTLE by stronger manipulation or incorrect removal

- 3rd Self-alarm of the TURTLE when passing the EAS gate (AM or RF)
