

# Kwik-Set Puller (Manual and Spring Retraction)

## Features and Benefits

- ◆ Manually pull product forward to front of shelf
- ◆ Available in manual or spring-loaded retraction.
- ◆ Ideal for products that are difficult to push, delicate, or heavy product
  - Salty snacks, light bulbs, tube meats or cookies, cellophane-wrapped fresh meats, produce
- ◆ Use with the Kwik-Set platform of products
- ◆ Simplifies conditioning product
- ◆ Enhances customer accessibility

## Simplify product facing for delicate and heavy items with the Kwik-Set Puller

The Kwik-Set Puller is an innovative solution that simplifies product organizing and conditioning by offering the convenience of pulling products forward manually. With options available in manual and spring-loaded retraction, this versatile tool caters to various merchandising needs.

The Kwik-Set Puller elevates the shopping experience by effortlessly showcasing goods while maintaining their pristine condition. It specifically excels in handling delicate or heavy items that may be difficult to face with a standard pusher, such as salty snacks, light bulbs, tube meats, cookies, cellophane-wrapped fresh meats, and produce.

Designed specifically for use with the Kwik-Set platform of products, the Kwik-Set Puller not only enhances customer accessibility but also aids in conditioning product displays for maximum visibility and appeal. The versatility of the Kwik-Set system allows these pullers to be installed alongside items using pushers to optimize product-facing needs depending on product type.
