- ◆ Standard shelf height available in 1.5" and 3.0". Stock lengths available from 10" to 18".
- ◆ Custom heights and lengths are also available.
- ◆ Accessories include magnetic front fence and magnetic product lamp

Magnetic shelf divider for quick category management

Clear Magnetic Dividers from Southern Imperial provide a quick and easy way to manage and organize merchandise. The Magnetic Divider is ideal for use on industry standard steel display shelving. Ordinary adhesive dividers offer only a one-time use and removing them is difficult and messy. Magnetic dividers remove the hassle with no cleanup involved. Just place on the shelf and you're ready to go! Dividers can be installed throughout the shelf and, unlike adhesive dividers, are reusable. No fasteners or install tools necessary. Magnetic Dividers provide shelf management for a variety of grocery and convenience applications.

NOTE: Available in 10", 12", 14", 16", 18", 20", and 24" lengths.
