- ◆ Racks pull out for faster rotation
- ◆ Patented paddle pusher with integrated ball bearings to provide optimal product facing in tough store environments

Patented bearing pusher

NEXT PRO™ SaladRack is the Ultimate Solution for Full, Fresh, and Organized Produce Aisles

NEXT PRO™ provides best-in-class performance for merchandising throughout the retail environment. It has been specifically designed to address why other systems fail in facing and organizing merchandise. Now available in bar mount design to install on standard display crossbars.

Designed for efficiency and ease, the NEXT PRO™ SaladRack™ features pre-measured, locking width settings that ensure your planograms stay perfectly in place, even during the busiest shopping and stocking activities. The latest SaladRacks come with deeper sizes, giving you increased capacity to reduce stock-outs and keep your produce aisle looking full and fresh.
