# Roller Mat™ Pullout Shelf

Features and Benefits

- Shelf extends out using an easy two-handed release system
- 18" extension makes it easier to load product
- Perfect for first in, first out merchandising
- Shelves available in multiple depths for most major refrigerated and center store fixtures
- Integrated c-channel for price labels
- Designed at optimum angle for self-facing products

Roller Mat™ Pullout Shelf - Better Stock Rotation and Organization

Reduce safety risks, organize merchandise, and improve stock rotation in store categories for grocery and convenience stores using Roller Mat™ – Pullout Shelf. Standard shelving and display fixtures require multiple laborintensive shelf resets.

Roller Mat™ Pullout uses a unique frame design that allows for a smooth actuation using a double handle system for easy release when extending the shelf. The frame mounts directly into uprights, minimizing lost vertical space. Easy to install and even easier to use, Roller Mat™ Pullout reduces risk and improves restocking efficiency by ensuring First-In, First-Out rotation of product.

To engage, press buttons on both sides of Roller Mat™ shelf which releases the locking mechanism and allows for the Roller Mat™ to extend out (18") for easy merchandise restocking, allowing newest product to be loaded into the back for FIFO rotation.

Specifications

Item No.	Description	Dimensions	Color
4709300400	Roller Mat™ Pull-Out Floating Frame (HP/Hussman Coolers)	48"W x 23.5"D x 6.9"H	White
