

NEXT™ 2.0 Shelf Pullout Tray

Features and Benefits

- ◆ Tray snaps onto the Kwik-Set™ rail for secure attachment
- ◆ Kwik-Set rail provides easy side adjustment
- ◆ Tray expands from 4.6" to 11" wide
- ◆ Kwik-Set™ rail is rear-mounted to provide a clean presentation
- ◆ Standard NEXT 2.0 shelf tray options for paddles, springs, and front lenses are available

Revamp your shelf displays

Keep fast moving impulse items or time-sensitive products organized and setup for optimal stock rotation using NEXT™ 2.0 Merchandising Shelf Pullout Trays.

Pullout Feature - makes it easier to load product on the bottom shelf or in tight shelf configurations – perfect for insuring first in, first out merchandising. Features adjustable side dividers, expandable tray from 4.6" to 11" wide, removable C-channel on front fence for product pricing and promotion.

NEXT™ 2.0 Shelf Trays organize and push each product to the front of the tray, making every item visible and available for customers. This also reduces the need for periodic restocking of store shelves – saving retailers on labor costs!
