

# Under-Shelf Can Roller Rack – For Wire Display Shelves

## Features and Benefits

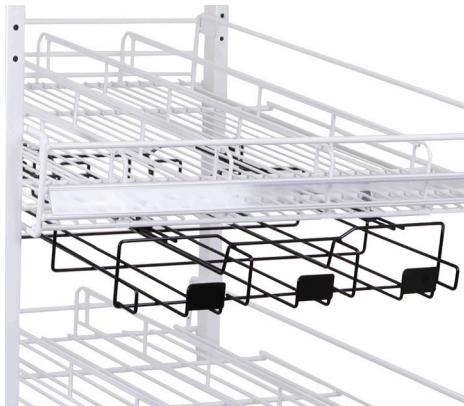

- ◆ Low Profile
- ◆ Great for cross merchandising applications
- ◆ Easy to install — clips into standard wire shelf displays
- ◆ Fits up to thirty 16 or 24 oz. soda cans (depending on size)

Low-profile solutions for cross merchandising beverage cans

Retailers and brands are constantly faced with finding new opportunities to cross merchandise their products and optimizing the overall merchandising space. The Under-Shelf Can Roller is a perfect solution to take advantage of unused space and to highlight promotional items.

The low-profile wire rack installs easily under existing wire shelf displays.

The Under-Shelf Can Roller is designed to fit 16 and 24 oz. beverage cans. The Under-Shelf Can Roller also provides self-facing functionality. As each beverage can is shopped, the next can rolls to the front to ensure merchandise stays accessible and organized.
