

Under Shelf Cross Merchandiser

Features and Benefits

- ◆ Cross promote different products
- ◆ Adds more merchandising space
- ◆ Features 1.25" price channel for branding promotion
- ◆ Easy to install within standard gondola shelving
- ◆ Boost category sales
- ◆ Made of durable wire for lightweight, sturdy design

Maximize Your Merchandising Space with the Under Shelf Cross Merchandiser

The Under Shelf Cross Merchandiser is a versatile solution for retailers looking to maximize their merchandising space and drive sales. By cross promoting different products, this innovative tool adds more merchandising space without taking up valuable shelf real estate. The 1.25" price channel allows for branding promotion, creating an eye-catching display that attracts customers' attention. Easy to install within standard gondola shelving, the Under Shelf Cross Merchandiser boosts category sales by showcasing related items together in a cohesive manner. Made of durable wire, this lightweight yet sturdy design ensures that your merchandise remains secure while on display. Overall, the Under Shelf Cross Merchandiser is a must-have accessory for any retailer looking to optimize their retail space and increase sales opportunities.

The Under Shelf Cross Merchandiser is easy to install and comes with all required mounting hardware. Note: Requires a philips head screw driver.
