Bin Liner, Riser Insert, and Base for Corrugated Bin Displays

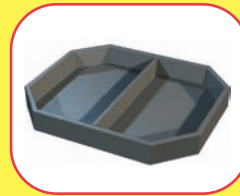

Bin Liner, Riser Insert, and Base for Corrugated Bin Displays from FFR-DSI maintain a high volume image, while reducing shrink due to poor rotation and crushing weight damage. The false bottom eliminates the need to reach deep into the bin damaging the produce in the process. The bin case keeps the bin off the floor and eliminates damage from floor cleaning agents. The unique base design allows for easy mobility with a pallet jack or fork lift.

Features and Benefits

- The false bottom requires less inventory; therefore, reducing shrink due to poor rotation and crushing weight of excessive stock.
- Case keeps the bin off the floor to eliminate damage from cleaning products.
- Base is designed for easy mobility by pallet jack or fork lift.
- Use with Pallet Sign Holder with Sign Frame.
