# Gravity Feed Merchandiser for Yogurt

The Gravity Feed Merchandiser for Yogurt from FFR-DSI is designed to provide impeccable yogurt presentation on-shelf, easy product rotation and plan-o-gram resets, as well as reduced labor costs and increased sales for most single pack containers. Constructed of highly durable POM plastic and powder-coated steel, the system is easy to clean and will make a real impact in the aisles.

Patent Pending

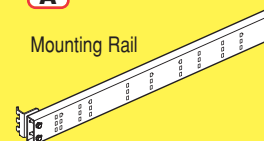

## Features and Benefits

- Constructed of highly durable POM plastic and powder-coated steel.
- Accommodates first in, first out stock rotation.
- Trays pull out for easy rotation and restocking.
- Plastic trays slide out and are removable for cleaning.
- Gravity feed self-facing design keeps section looking full, reducing labor and increasing sales.
- Minimal pack-out loss (15 facing across and 6 - 7 deep on Dannon, 7 deep on Yoplait).
- Spring loaded retainers secure yogurt cups making it easy for customers to access.
- System includes a price tag holder for each tray, additional tag holders also available.
- Easy to install, keep clean and restock.
- Also available for Greek yogurt cups.
