Gravity Feed Shelf for Refrigerated Jar Product

FFR-DSI's Gravity Feed Shelf for Refrigerated Jar Product is angled to automatically face product, reducing labor cost and improving appearance. Heavy-duty design is ideal for dressings, jellies, dips or other jarred products. Integrated dividers are both adjustable and durable, providing a versatile and lasting solution.

Features and Benefits

- Specially designed shelf keeps dressings and other jars neat, organized and faced forward.
- Shelf is angled 10° and made of heavy powder-coated steel.
- Shelf is very strong and has a maximum load limit of 200 lbs
- Inventory issues are obvious at a glance; quick and easy re-stocking saves labor costs.
- Clear adjustable snap-in dividers fit any product width.
