

Total Retail Solutions®

Infant Formula Merchandiser

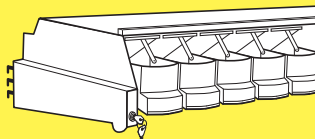

The gravity feed Infant Formula Merchandiser from FFR-DSI keeps products fronted with the integrated push lever that tilts cans forward for easy product access and returns to upright position slowly to prevent rapid multiple pulls. The single dispensing prevents shelf sweeping and deters shoplifting. The merchandiser is designed to meet the growing challenge of displaying high-theft items in a way that not only protects the merchandise, but is also accessible to the customers. The shelf pulls out for easy product rotation and restocking. Brand labels are easily visible when inserted into the front clear lens and are replaceable as well.

Features and Benefits

- Single dispensing prevents shelf sweeping and deters shoplifting.
- Designed to meet the growing challenge of displaying high-theft items in a way that not only protects the merchandise, but is also accessible to the customers.
- Gravity feed design self-faces product.
- Optional P.O.P. Security™ Invisi-Shield™ Panels allow for single access only.
- Push lever tilts can forward for dispensing.
- 1" tag molding incorporated into pusher lever door.
- Brand labels are easily visible through the clear lens and are replaceable.
- Merchandiser locks to prevent unauthorized access to inventory.
- Incorporated "lock down" feature prevents unauthorized dispensing during reduced staffing, evening hours, or in very high-theft areas.
- Heavy-duty merchandiser hooks directly to the gondola.
- No tools or assembly required.
- Additional locking styles available.
- Brand Label Kits for insertion into the front clear lens are also available, call FFR-DSI for more information.
