# Shelf-Top SuperGrip® Sign Holder

Create excitement in-aisle with the Shelf-Top SuperGrip® Sign Holder from FFR-DSI. Innovative design attaches to the top of existing perforated shelves, extending into aisles for a highly visible signage solution. Ideal for category management programs, the Sign Holder features FFR-DSI's SuperGrip® holding technology and is available with an integrated hinge that flexes when bumped for safety and durability.

## Features and Benefits

- Attaches to existing perforated shelves and holds signage in the “flag” position for maximum visibility down aisle.
- Ideal for category management programs, the Sign Holder can be used singly or in pairs from shelf-to-shelf to support blade signs.
- Available with or without hinge; integrated hinge flexes when bumped to withstand stocking and customer interaction.
- Adhesive-free attachment means Sign Holder can be repositioned and moved to deliver messages nearly anywhere in-store.
- SuperGrip® technology features reverse-angle grippers that “clamp” onto signage for a secure fit.
- Available in two capacities to hold material up to .100" or .100"-.250" thick.
