# Stainless Steel Ergo Handle Ladle

The ergonomic handle design of FFR-DSI's Stainless Steel Ergo Handle Ladle reduces the risk of spills when serving under low profile breath guards, while enhancing comfort and usability. The unique oval shape of the ladle bowl allows for easy filling of containers with smaller openings – ideal for salad dressings, soup containers and more.

## Features and Benefits

- Ergonomic “bent” handle makes it easy to serve under low profile breath guards
- Reduces spillage, keeping self-serve areas clean
- Plastic handle is heat resistant to 266°F (130°C)
- Oval bowl is uniquely suited for pouring into small containers
- Handle design and hook prevent ladle from sliding into serving container
- Dishwasher safe
