Swivel J-Hook with Channel Mount

Product Merchandising ■ Swivel J-Hook with Channel Mount

Cross-merchandise hooked product from nearly any channeled shelf with the Swivel J-Hook with Channel Mount from FFR-DSI. Simple, effective design features a J-Hook that attaches securely to existing shelf channels and pivots when bumped for customer safety.

Features and Benefits

- Adds viable merchandising space to nearly any channeled shelf for a sales-generating solution.
- Fits into most 1 1/4" H shelf channels; included 8-23 Phillips head machine screw keeps products securely in place.
- J-Hook pivots when bumped to protect customers and provides easy access to on-shelf product.
- J-Hook design reduces theft by eliminating "hook sweeping".
- Available with or without 1 3/8" H x 2 1/8" W scan plate.
- Zinc-plated, metal construction for a long-lasting solution.

Specifications

- Swivel J-Hook with Channel Mount
 - With scan plate - No. 7258926001
 - Without scan plate - No. 7256479101
