Under-Shelf Spring-Mount SuperGrip® Sign Holder

Add eye-catching signage to the shelf's edge with the Under-Shelf Spring-Mount SuperGrip® Sign Holder from FFR-DSI. Unique, spring steel mount clips securely into perforated shelf holes from below, delivering signage without obstructing product or shelf management systems. Use singly for product-specific promotions or in combination to display category signage.

Features and Benefits

- Clips to the underside of nearly any perforated shelving with spring steel mount that flexes to fit the shelf's holes.
- Optional locking screw provides additional security when affixing sign holder to shelf.
- Easy installation means signage can be moved quickly for use anywhere in-store.
- Available with or without hinge; integrated hinge flexes when bumped to withstand stocking and customer interaction.
- SuperGrip® technology uses reverse-angle grippers to "clamp" onto signage for a secure fit.
- Holds materials up to .100", or .100"-.250" thick.
